

KEAP1/NRF2 pathway proteins in RDH12

Shown: acute + recovery centered intensities; kept if significant in >=1 acute contrast

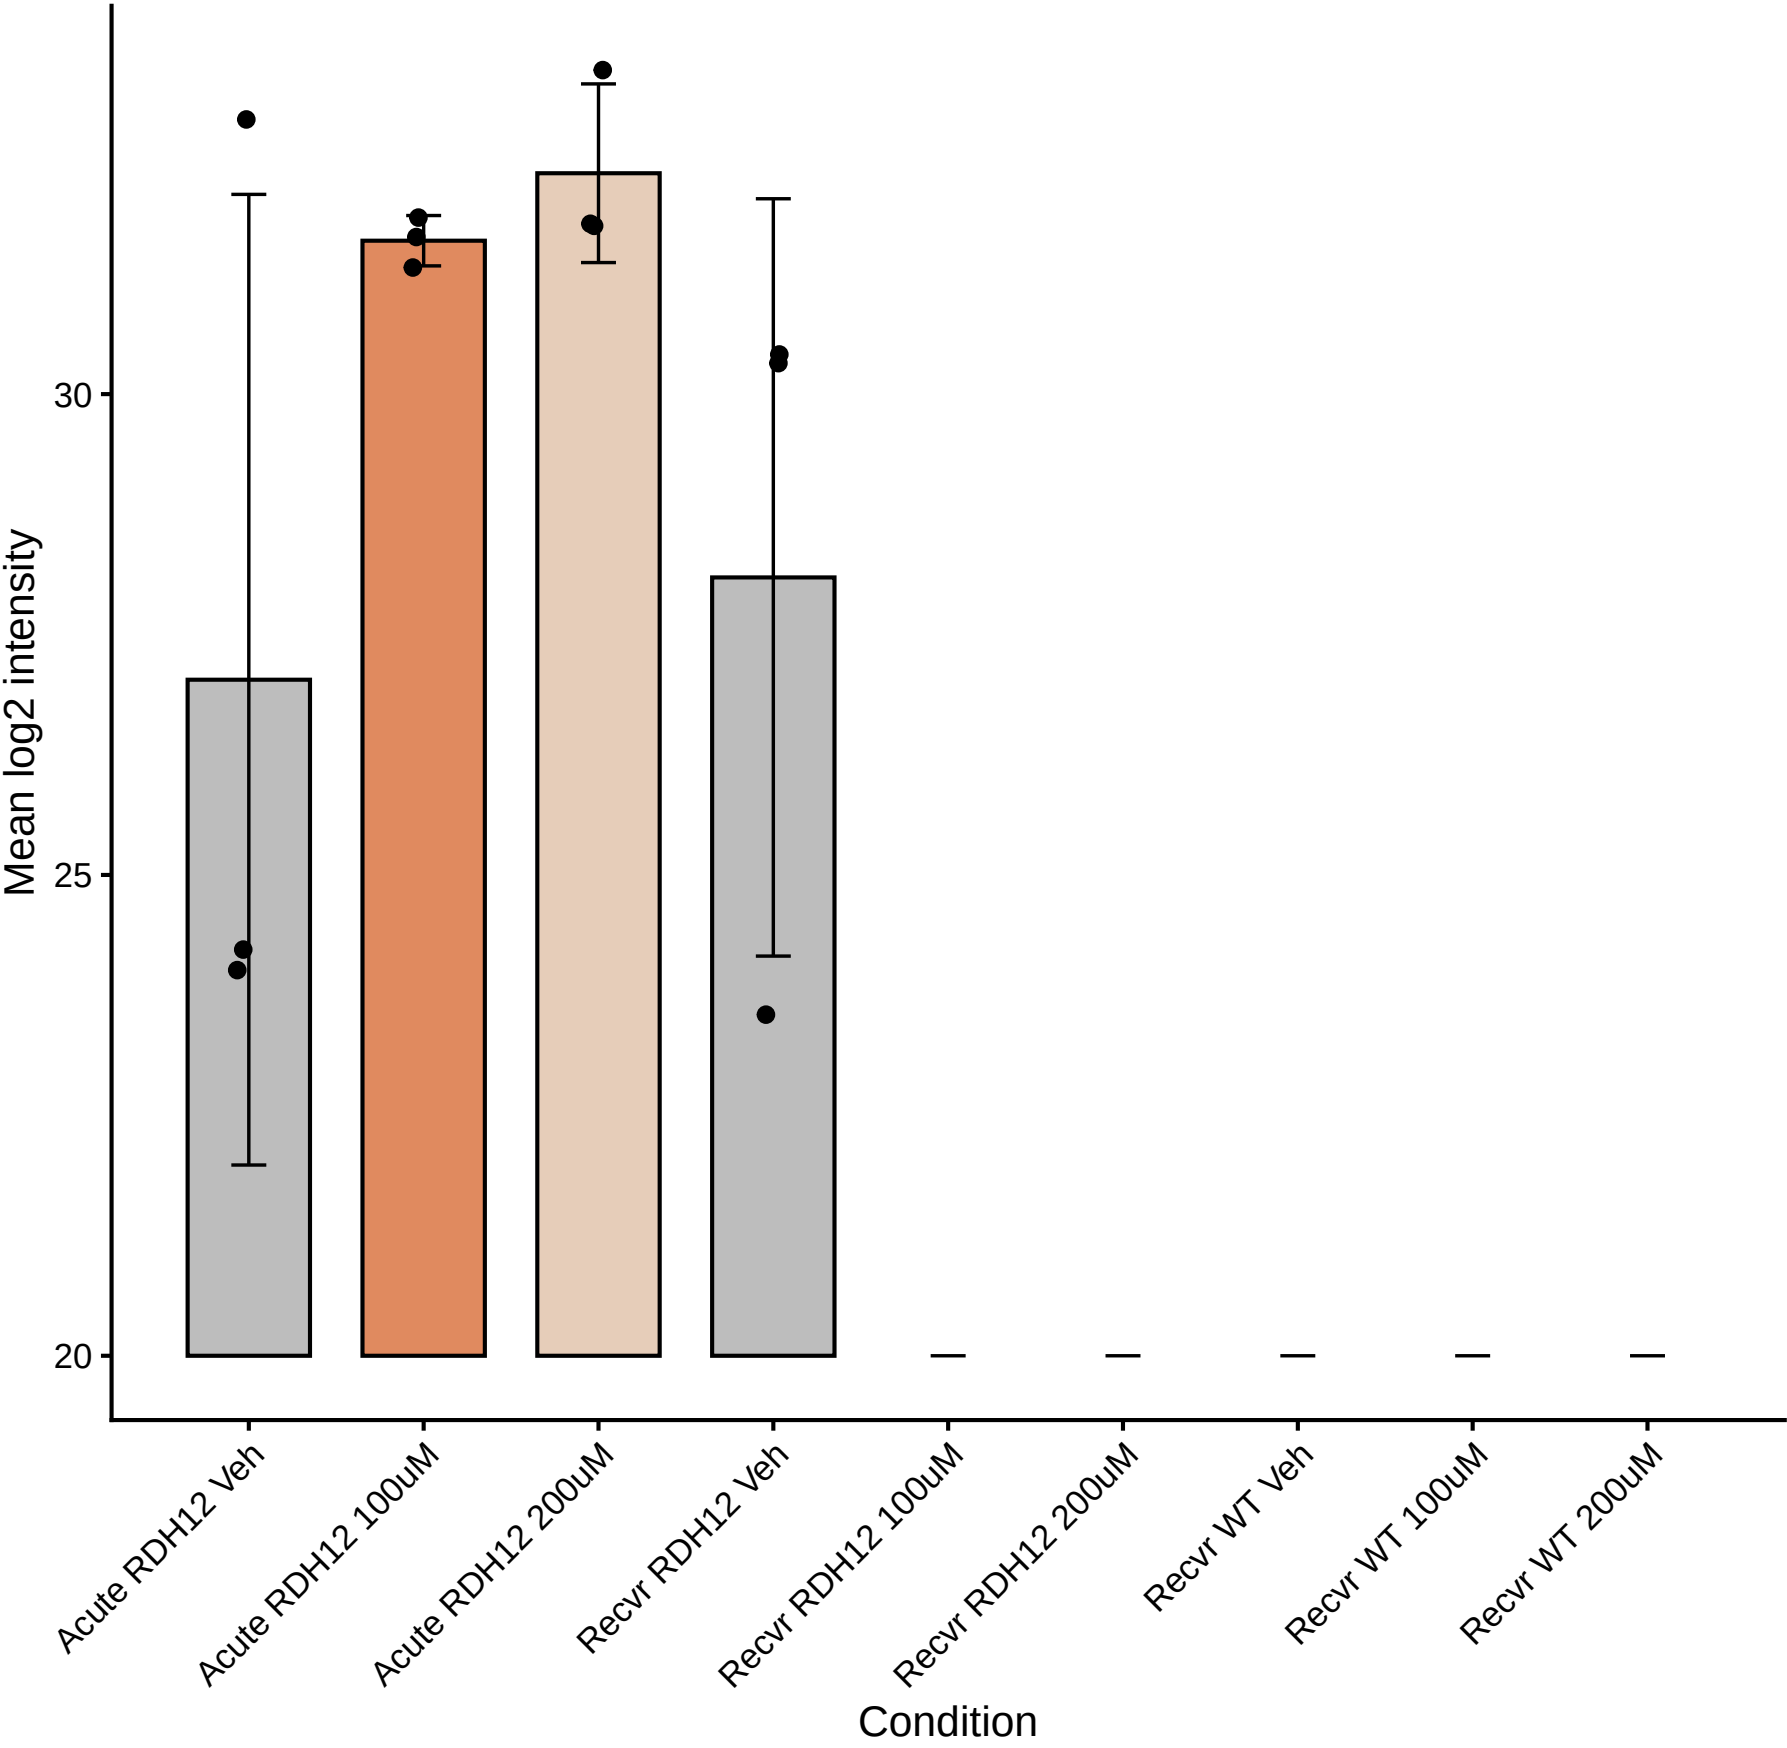

# PFDN4 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q9NQP4

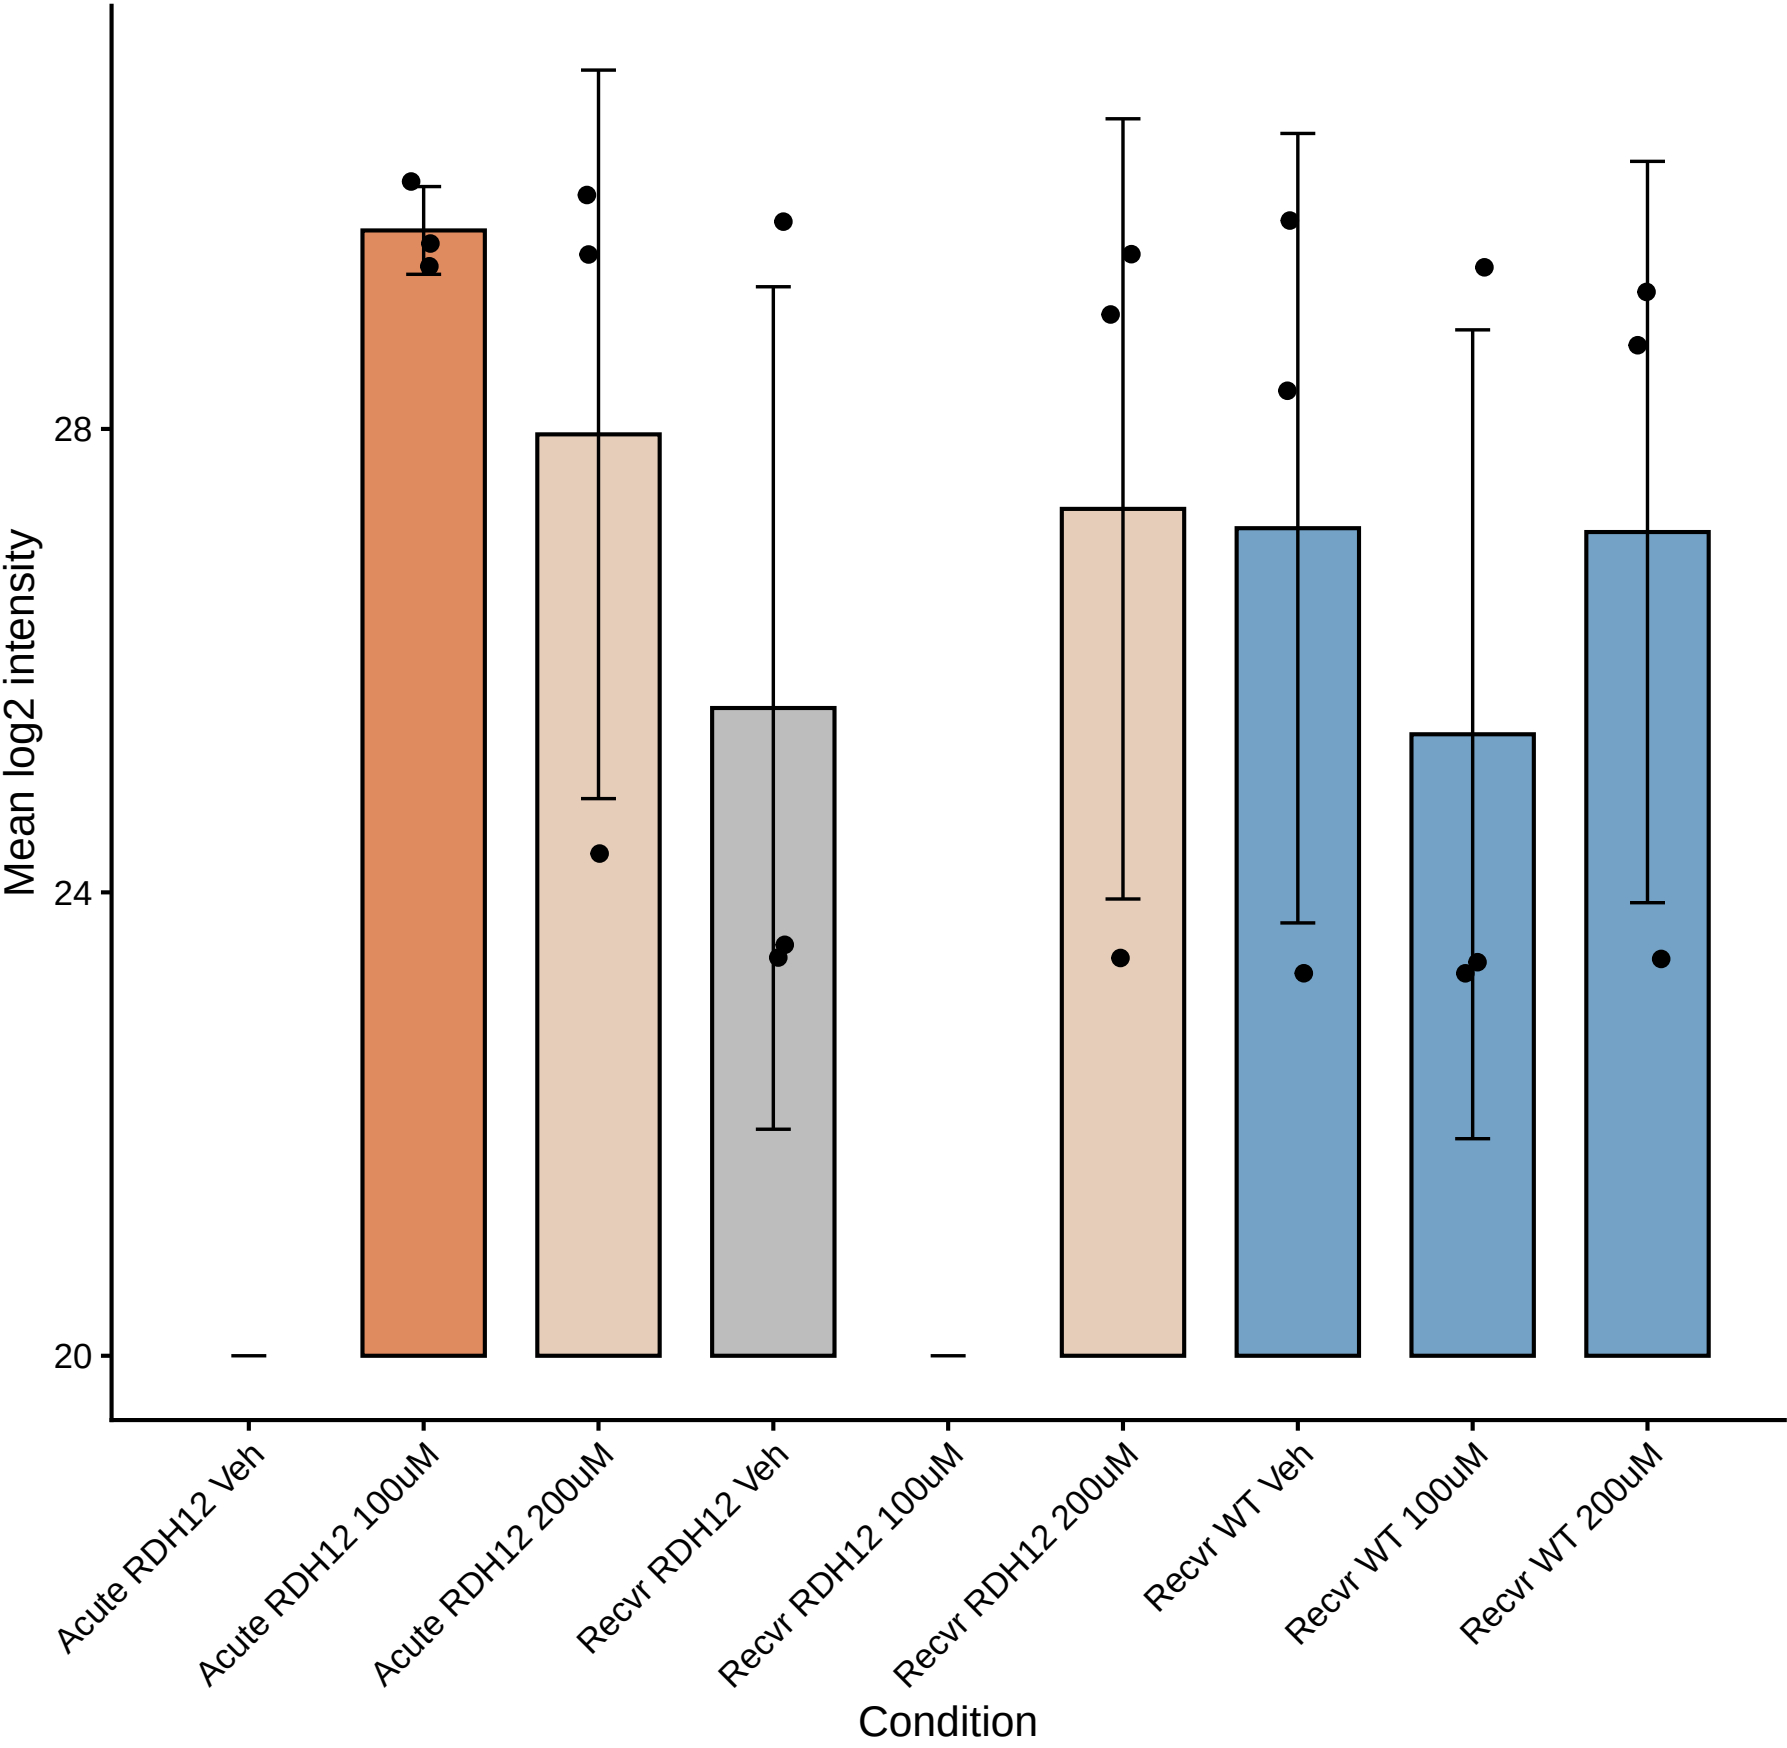

# HSPA6 Expression by Condition

Mean intensity across proteomics samples | UniProt: P17066

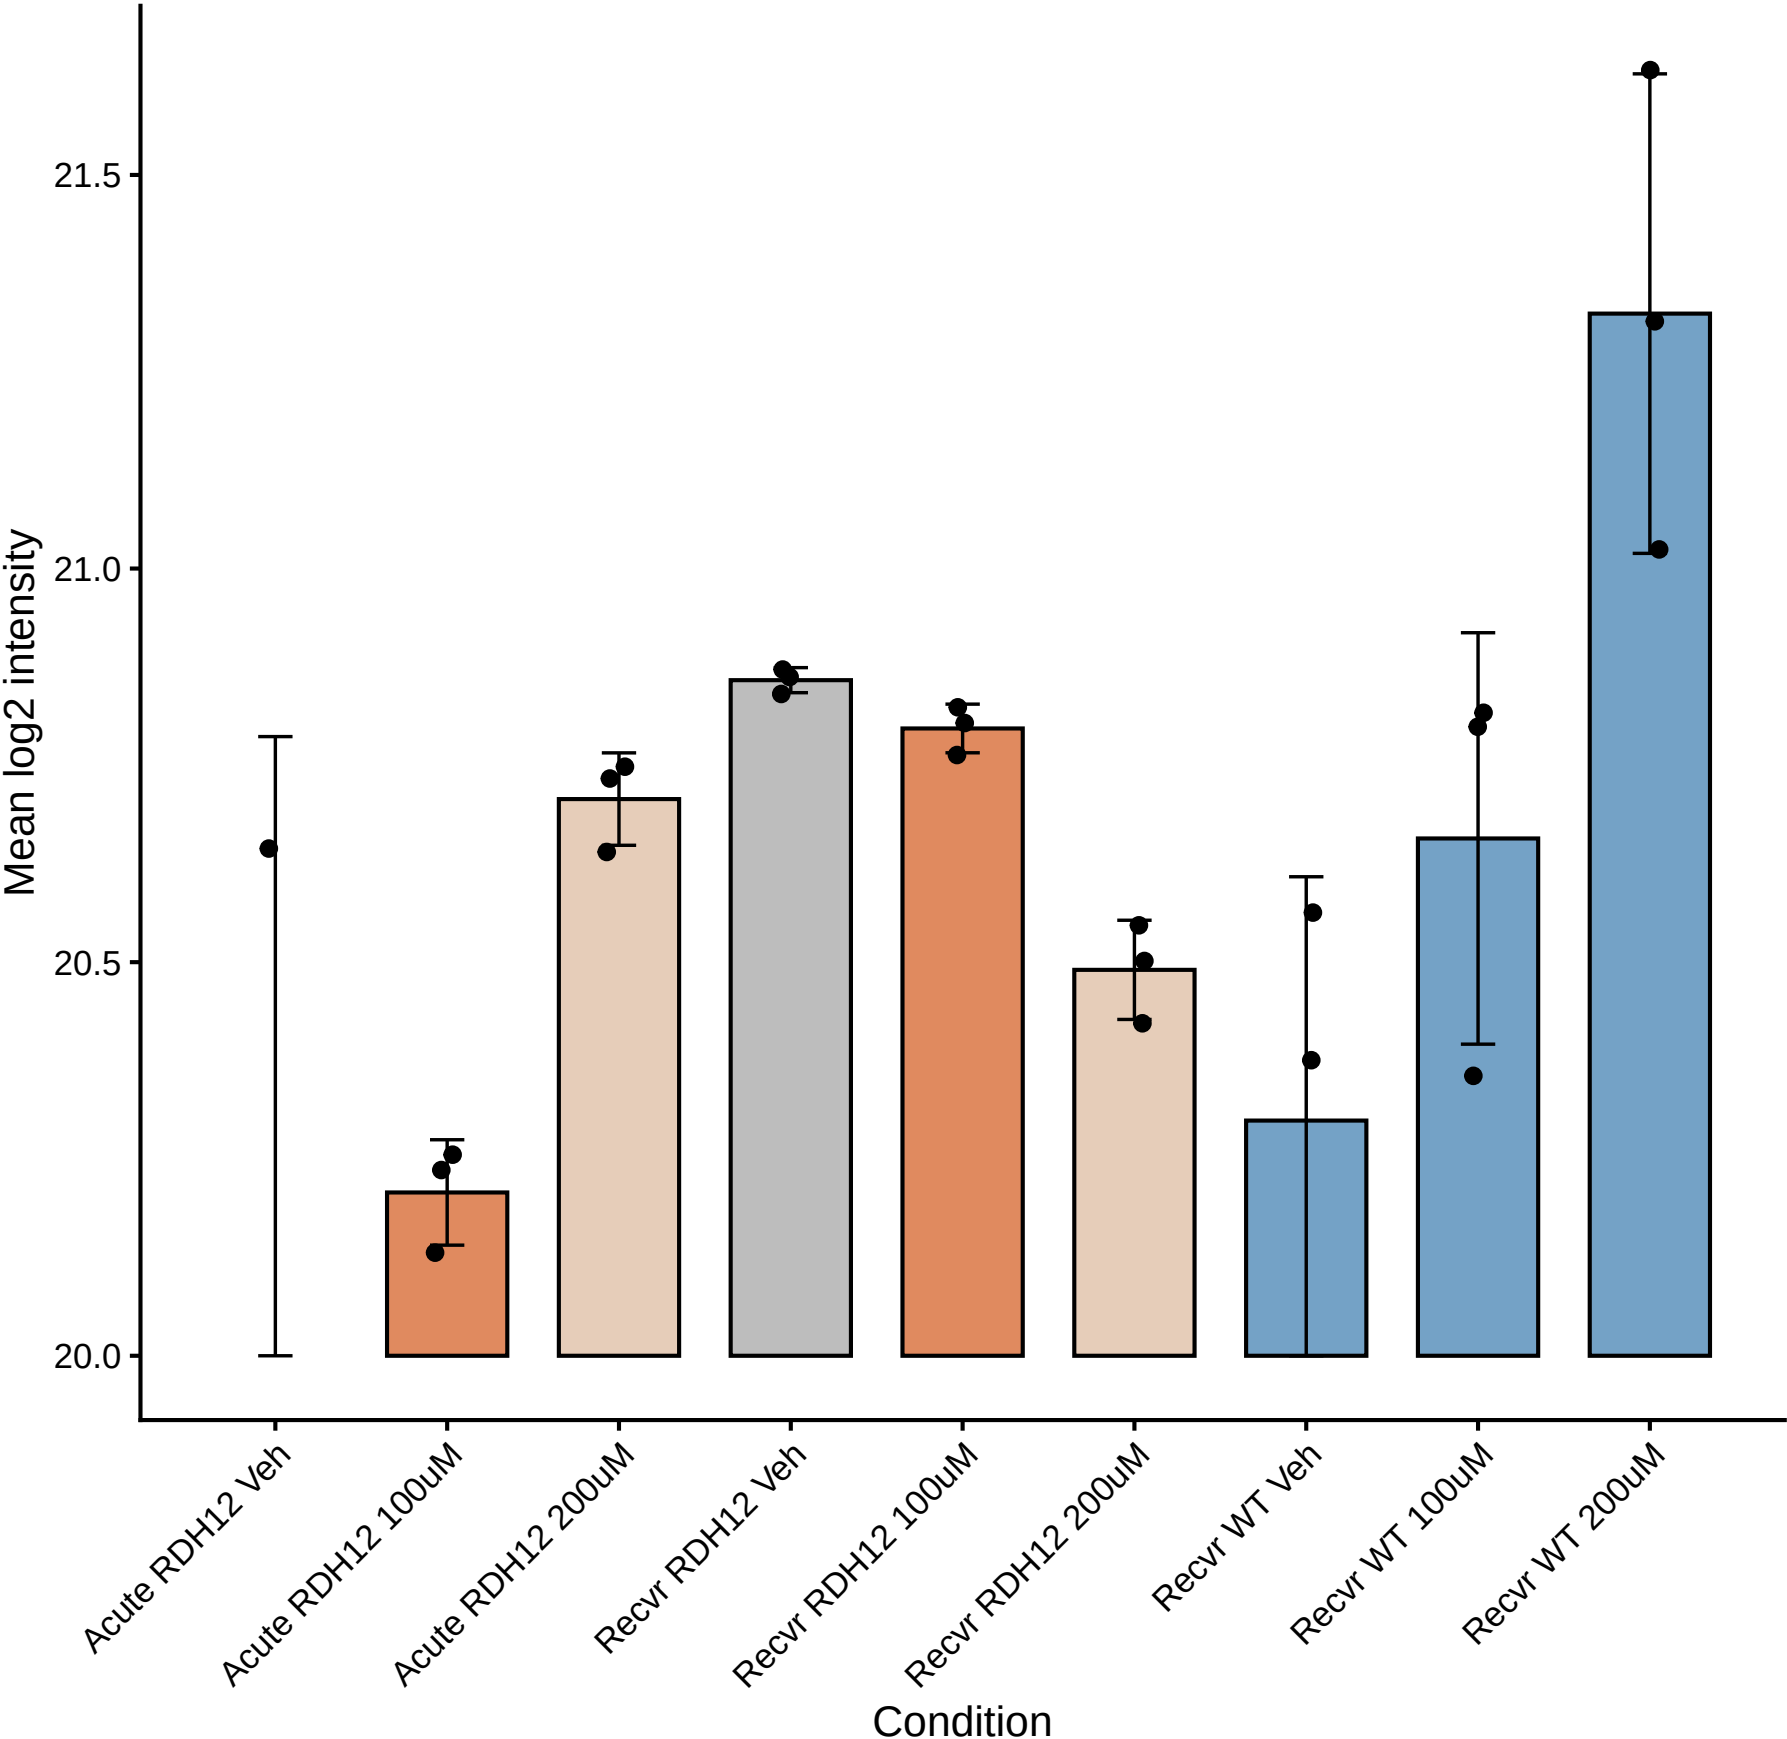

# TUBA4A Expression by Condition

Mean intensity across proteomics samples | UniProt: P68366

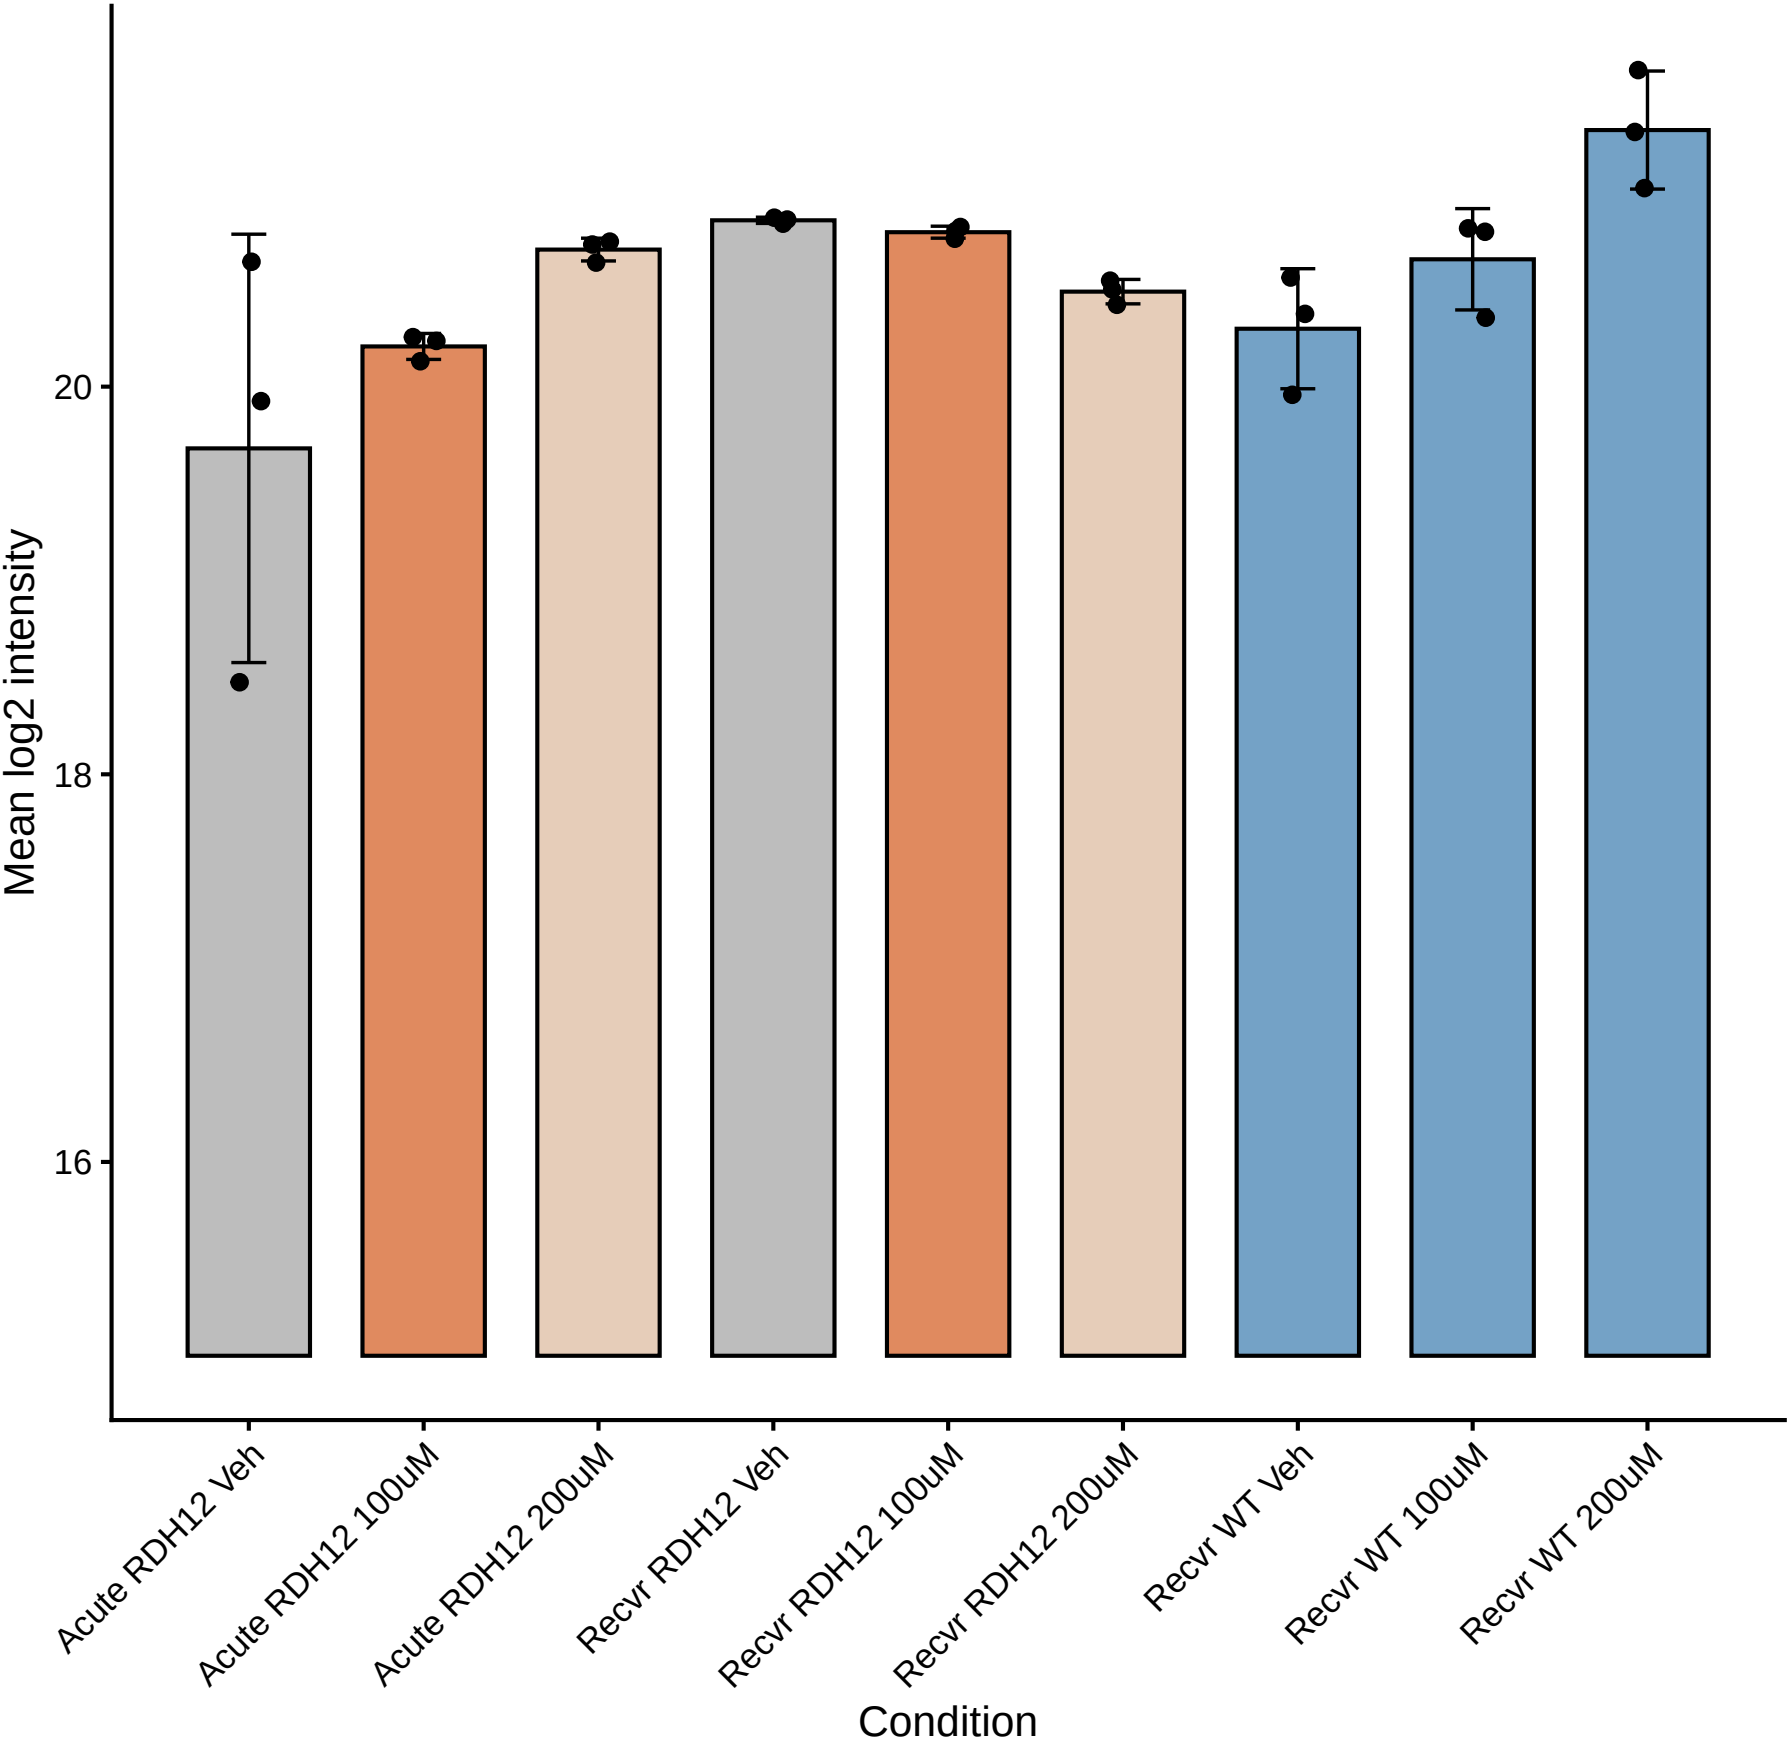

# PNPLA6 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q8IY17

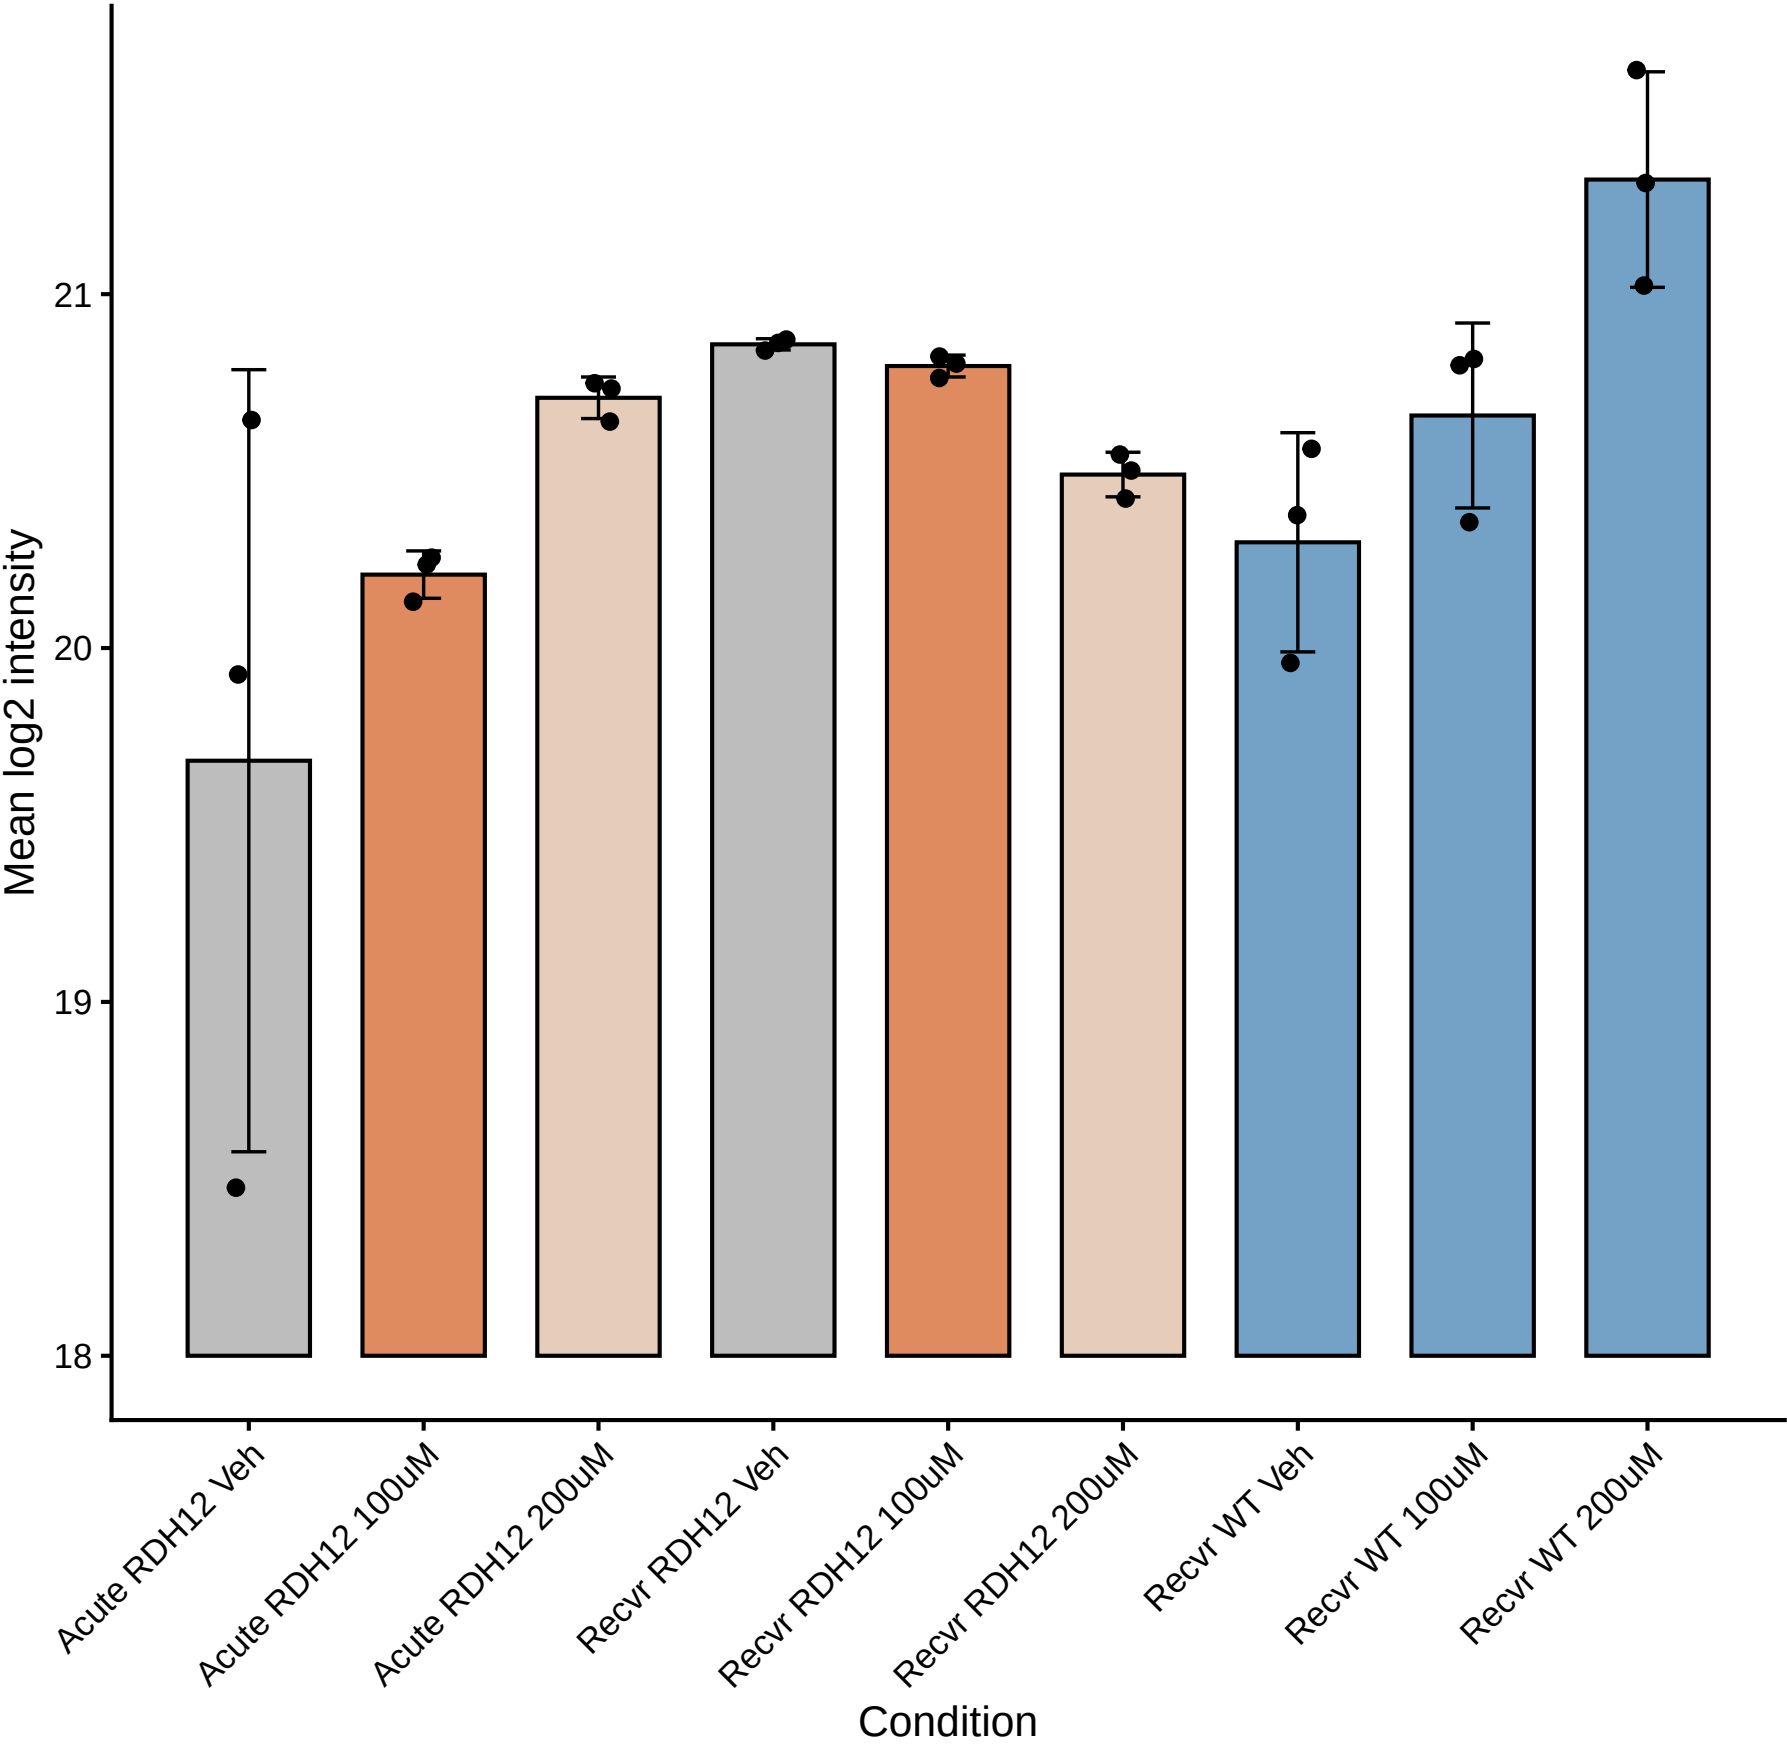

# PNPLA6 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q8IY17

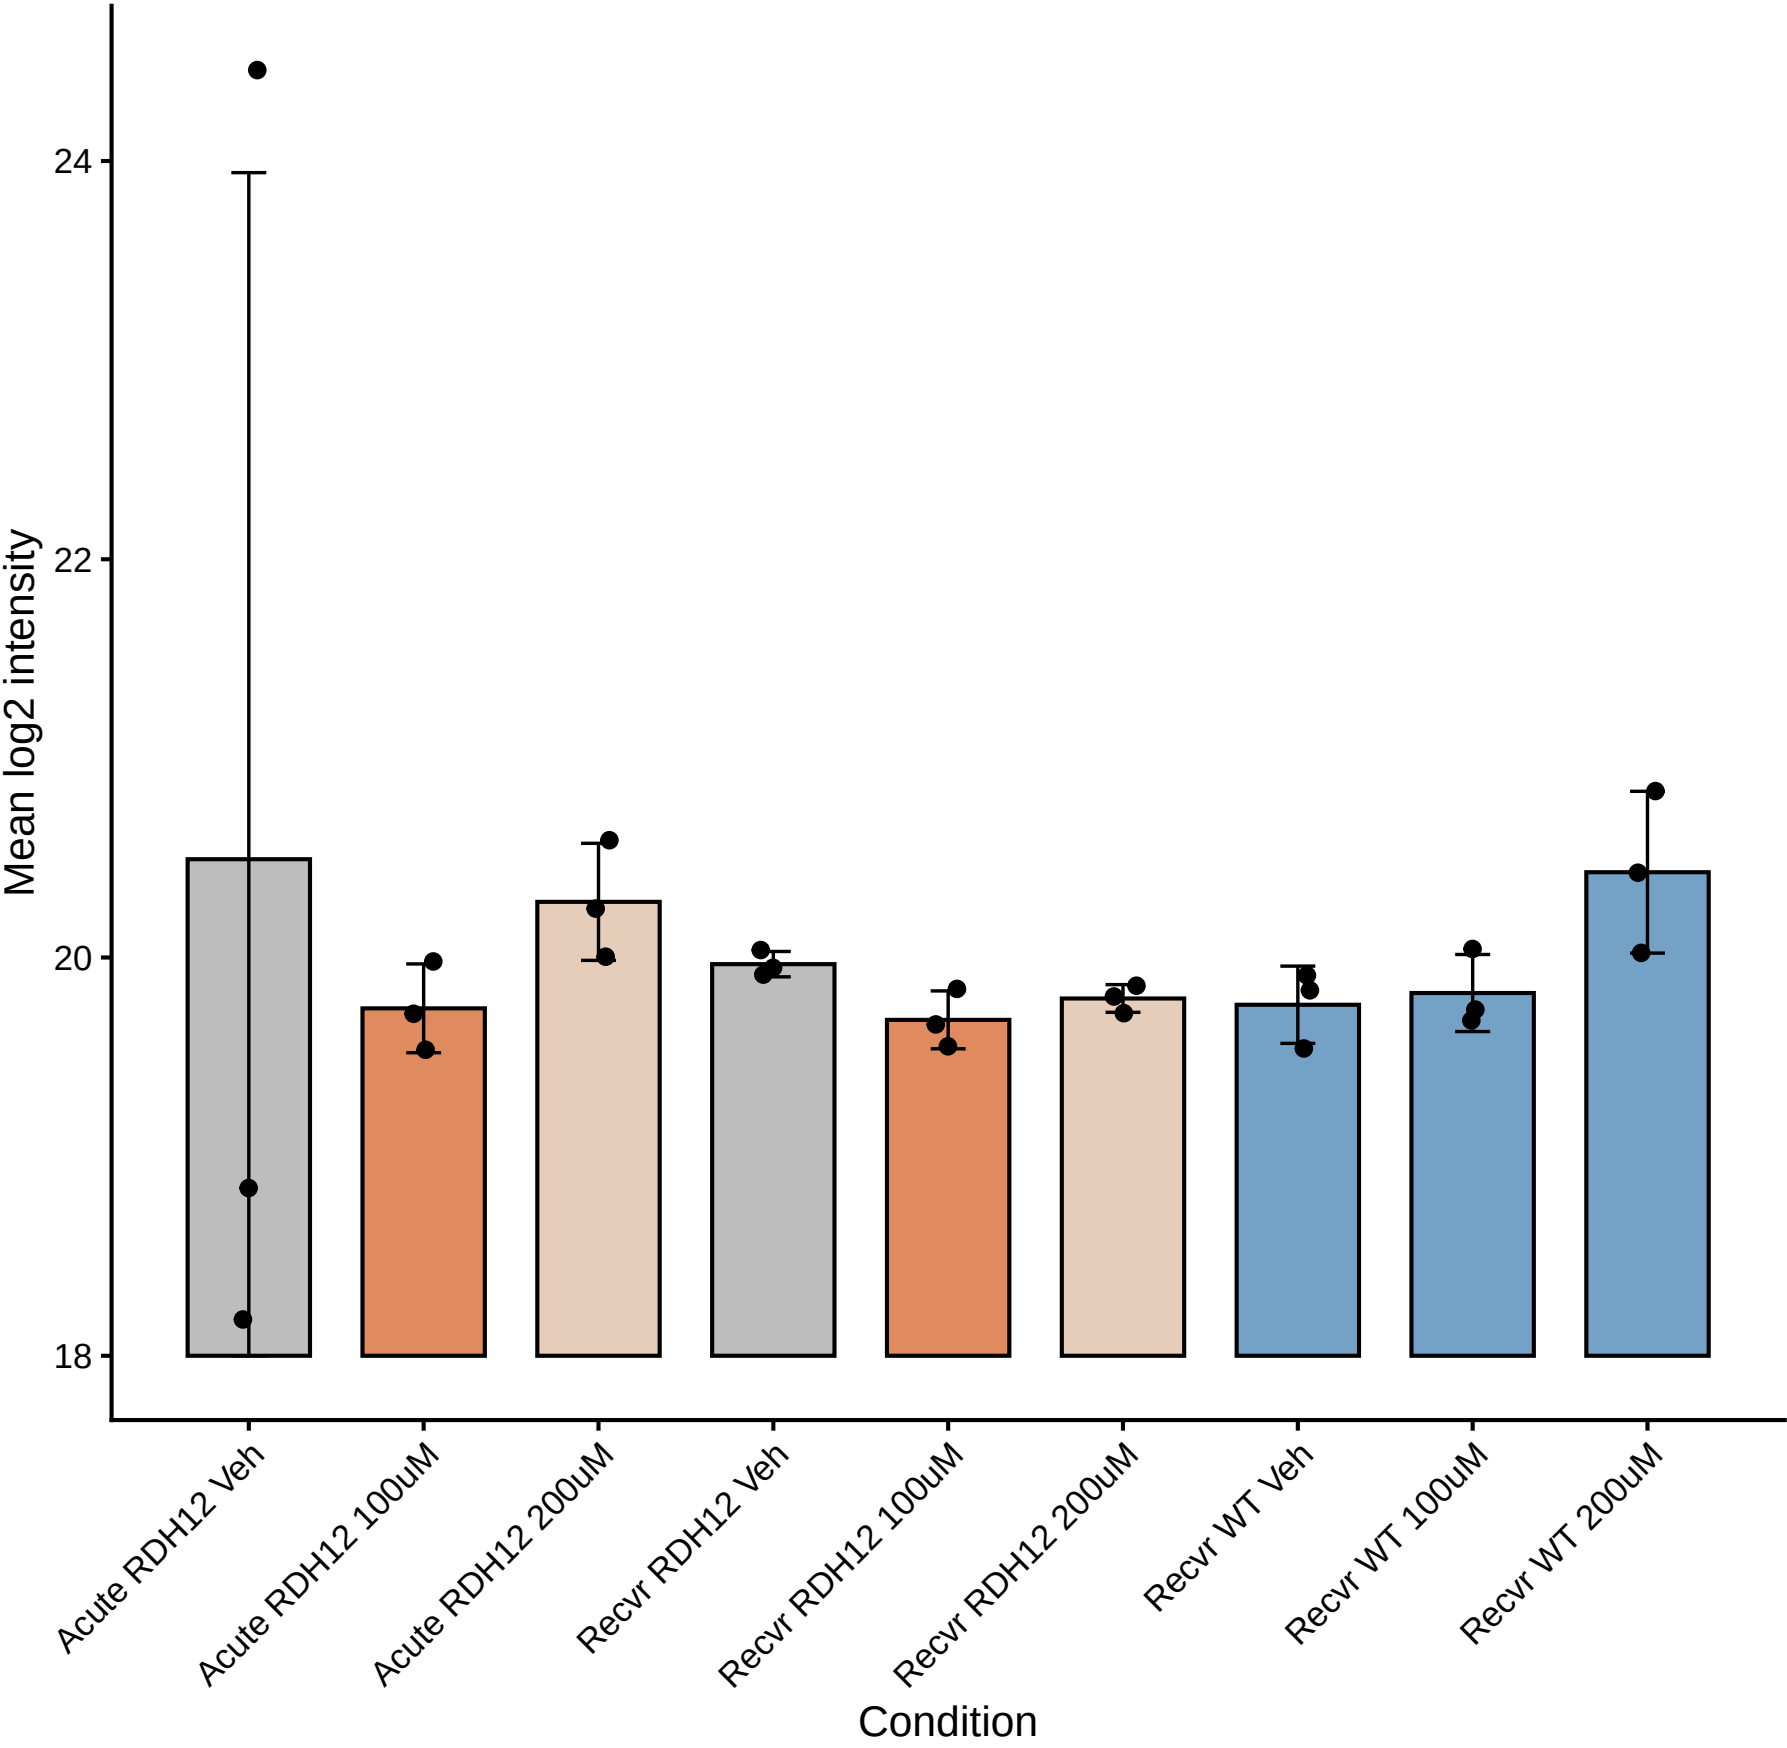

# PNPLA6 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q8IY17

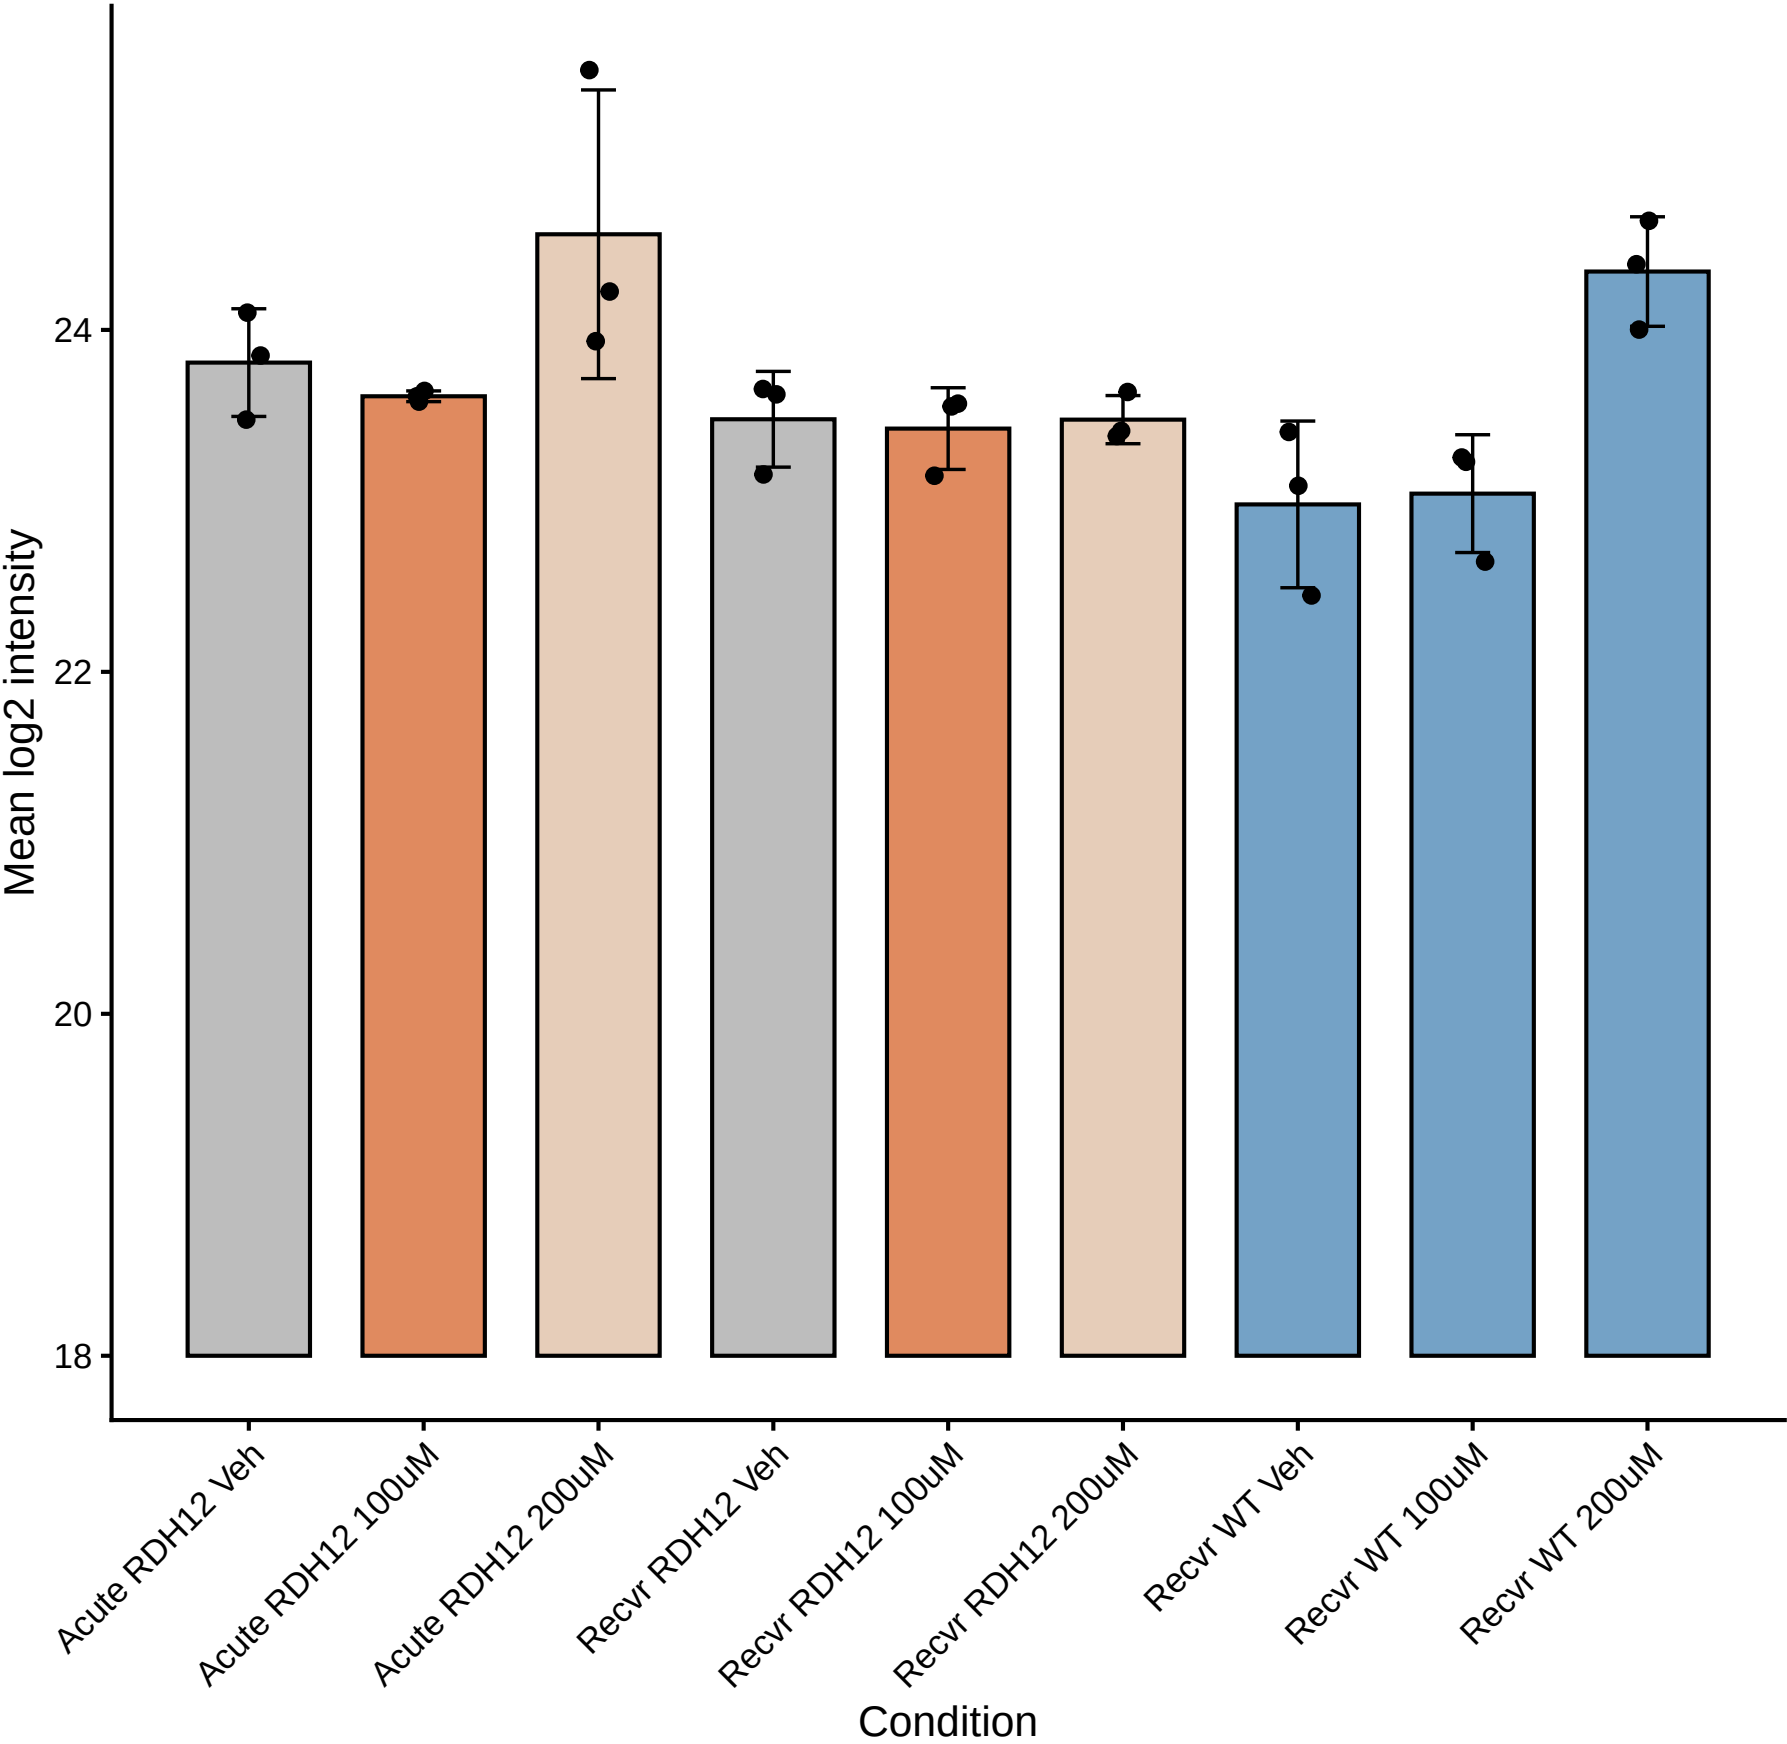

# PNPLA8 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q9NP80

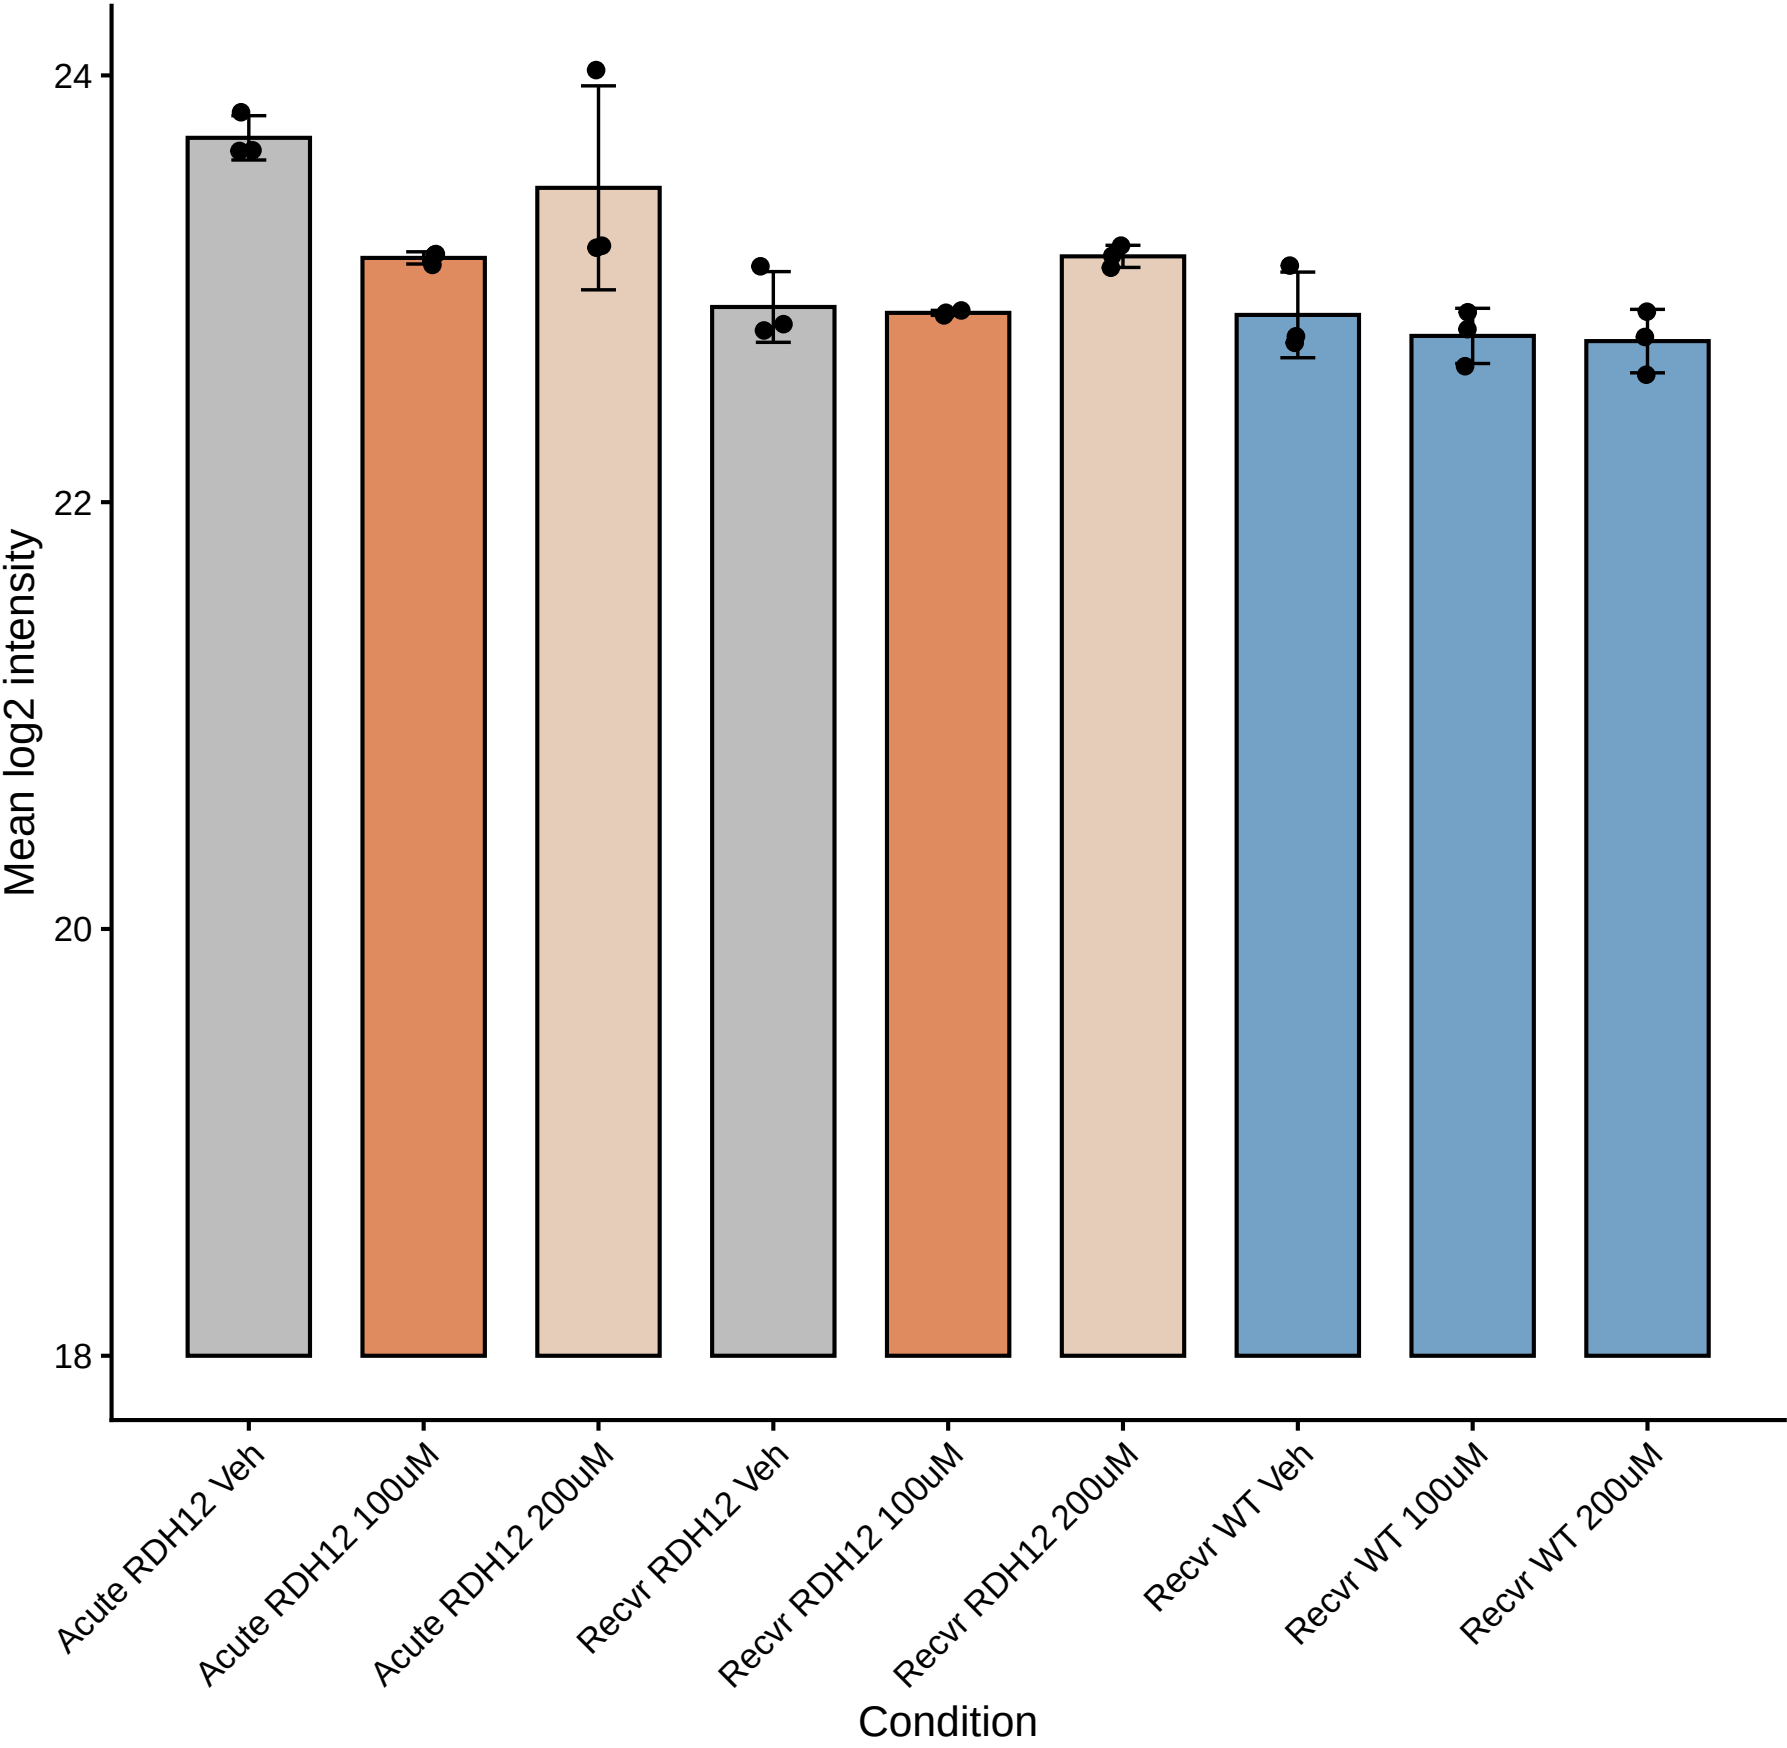

# PRKCA Expression by Condition

Mean intensity across proteomics samples | UniProt: P17252

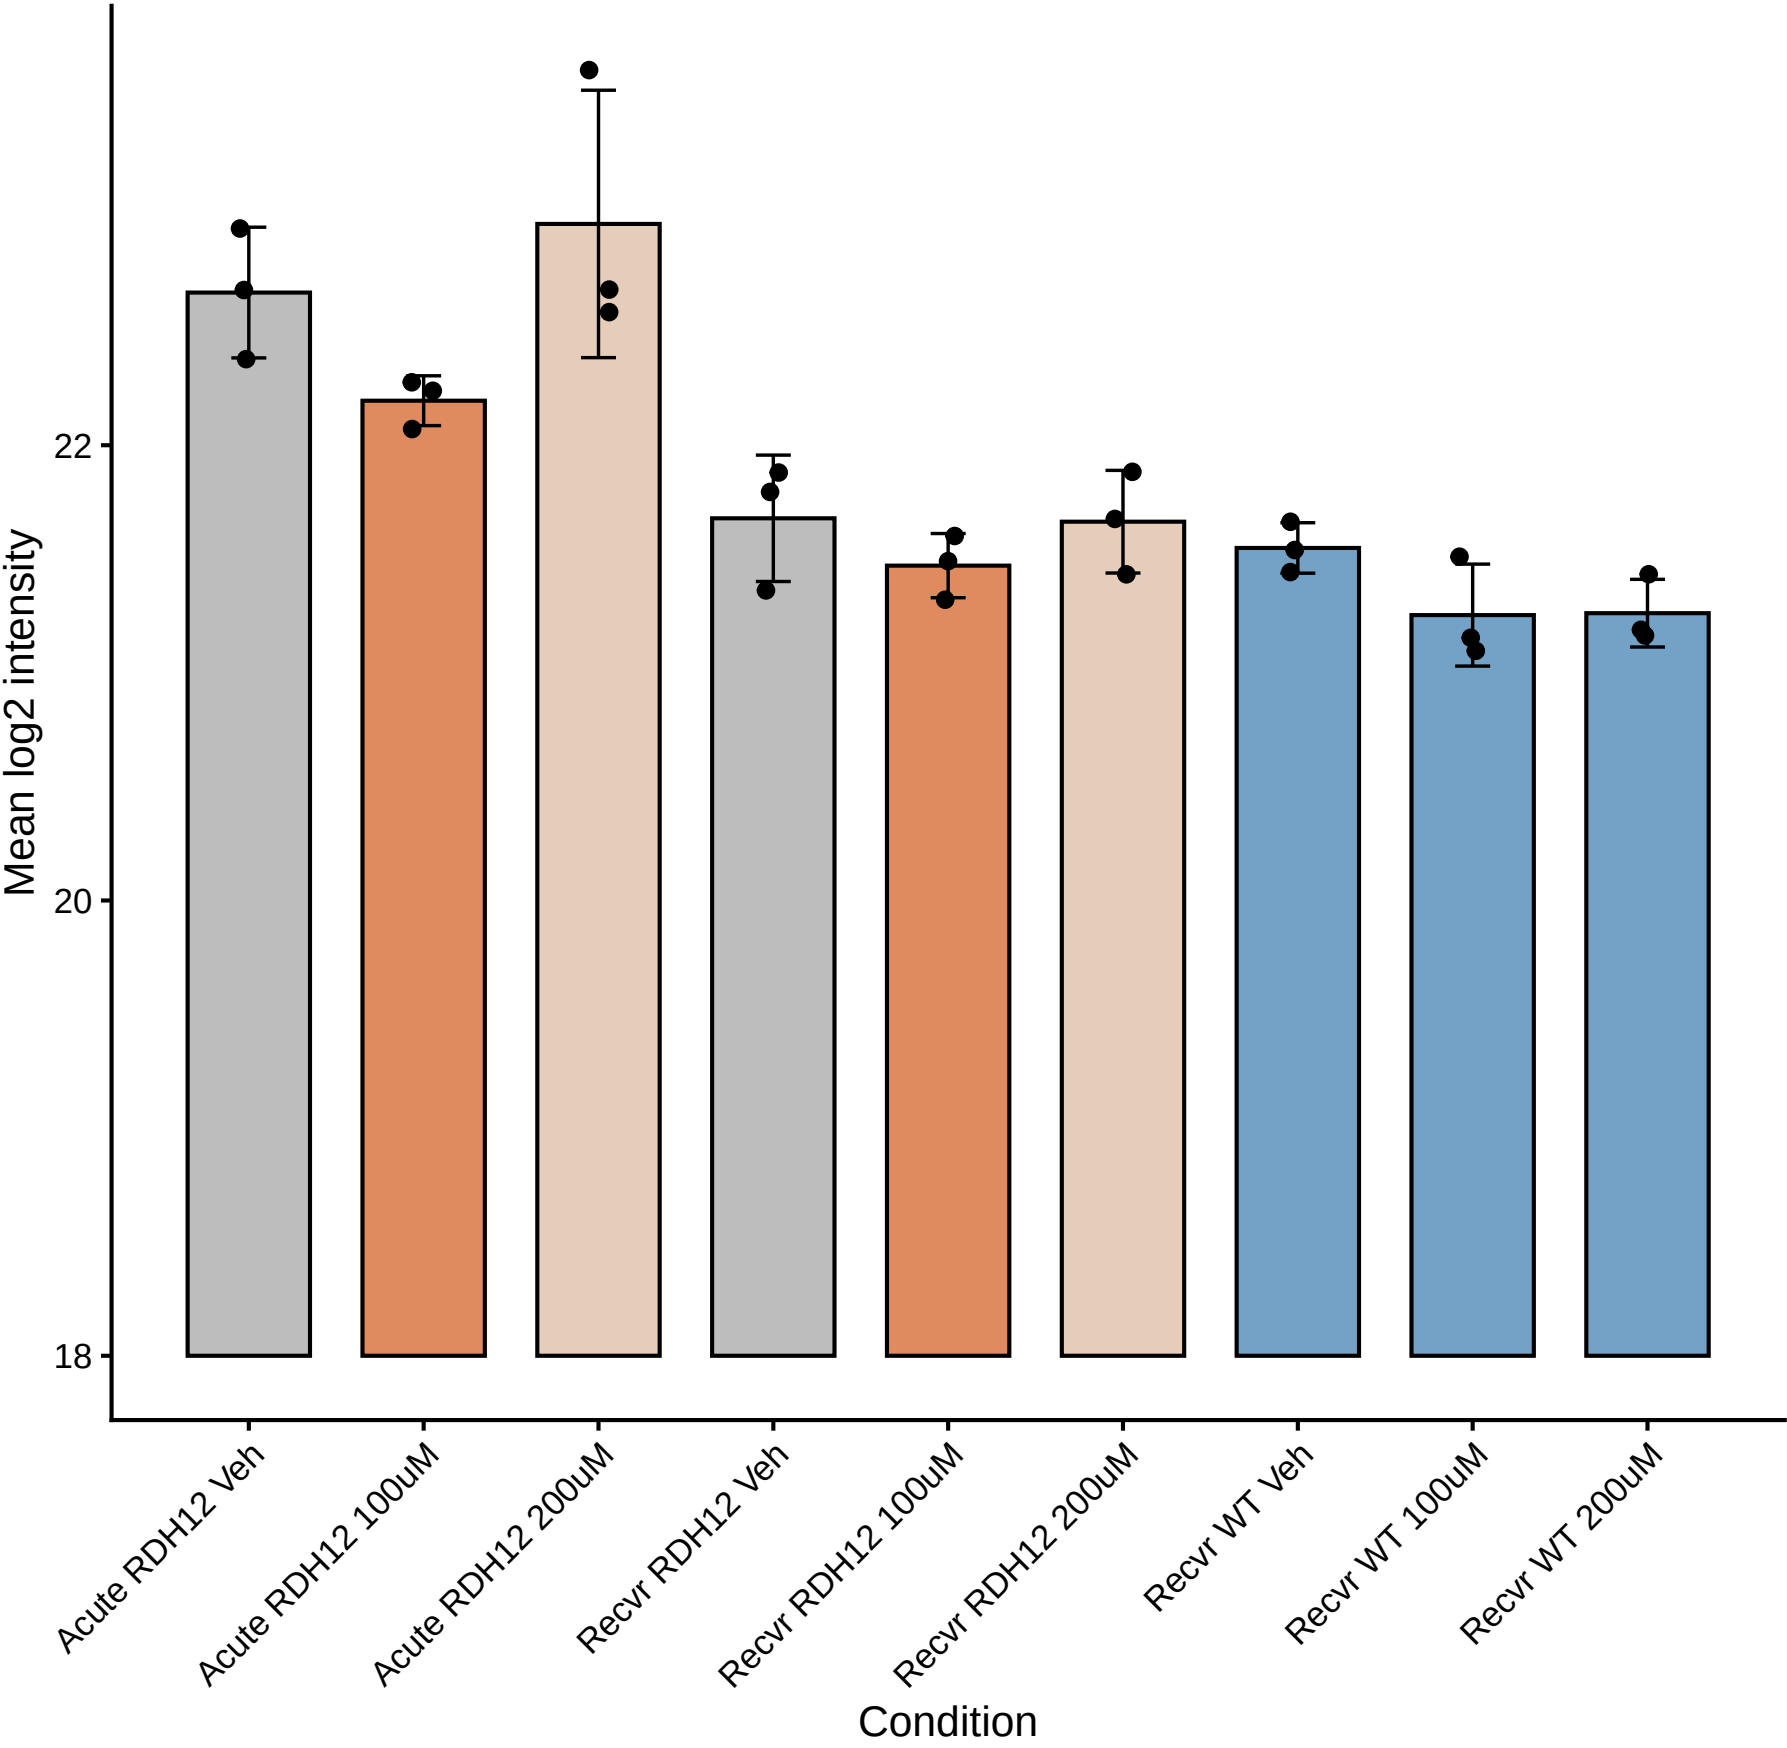

# PRKCD Expression by Condition

Mean intensity across proteomics samples | UniProt: Q05655

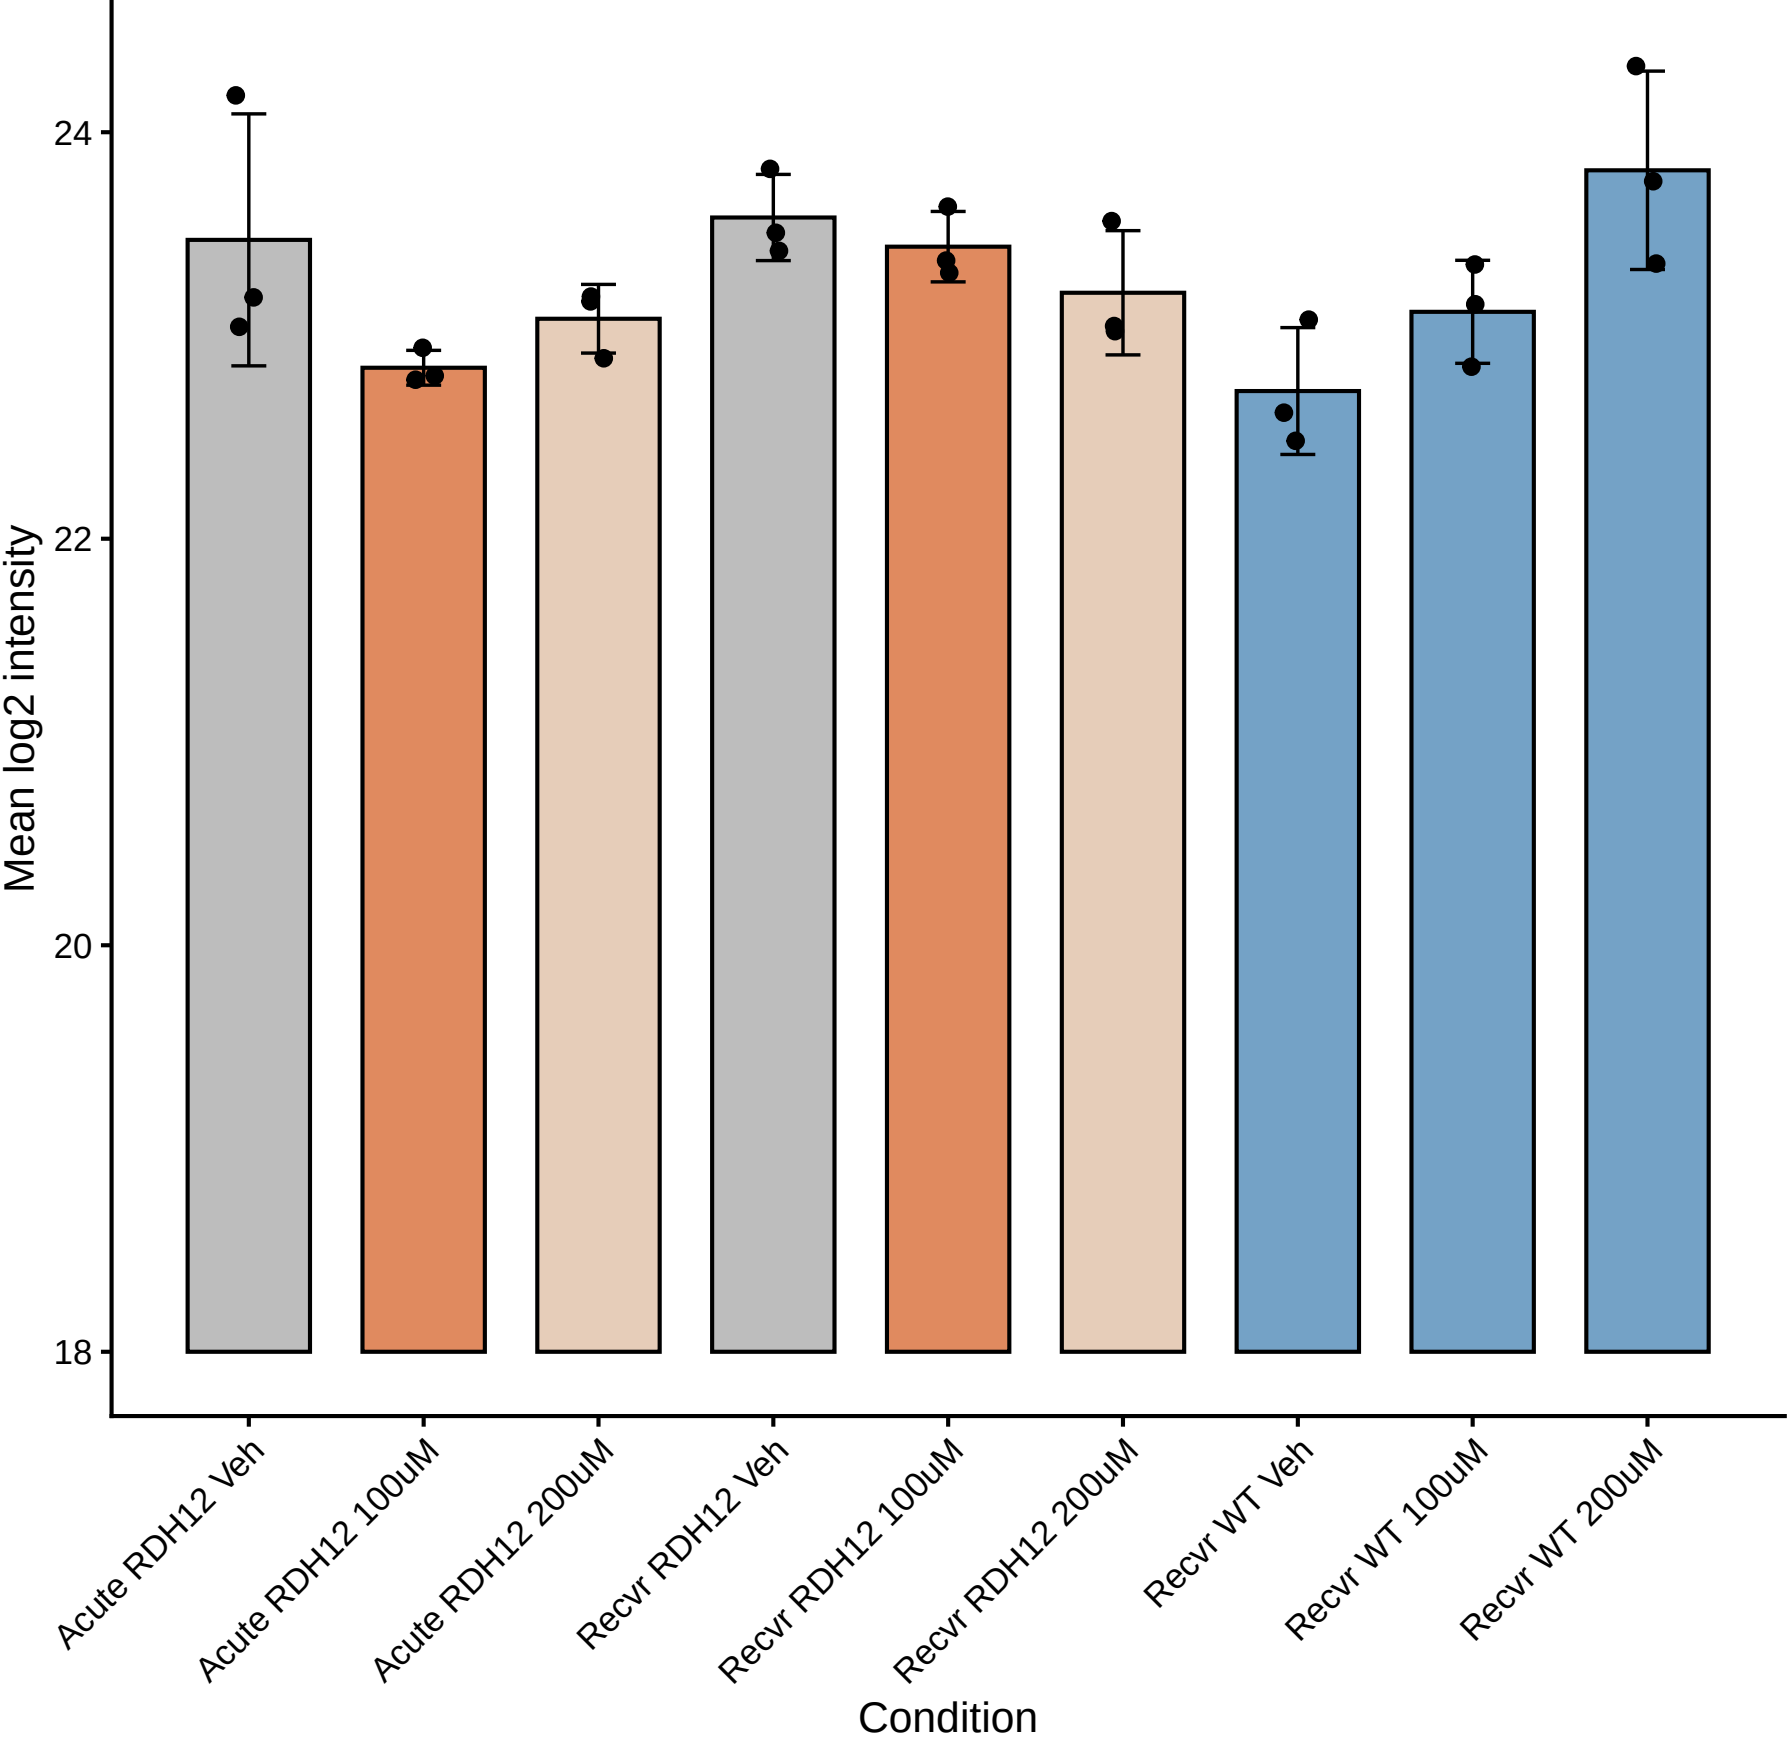

# SMPD1 Expression by Condition

Mean intensity across proteomics samples | UniProt: P17405

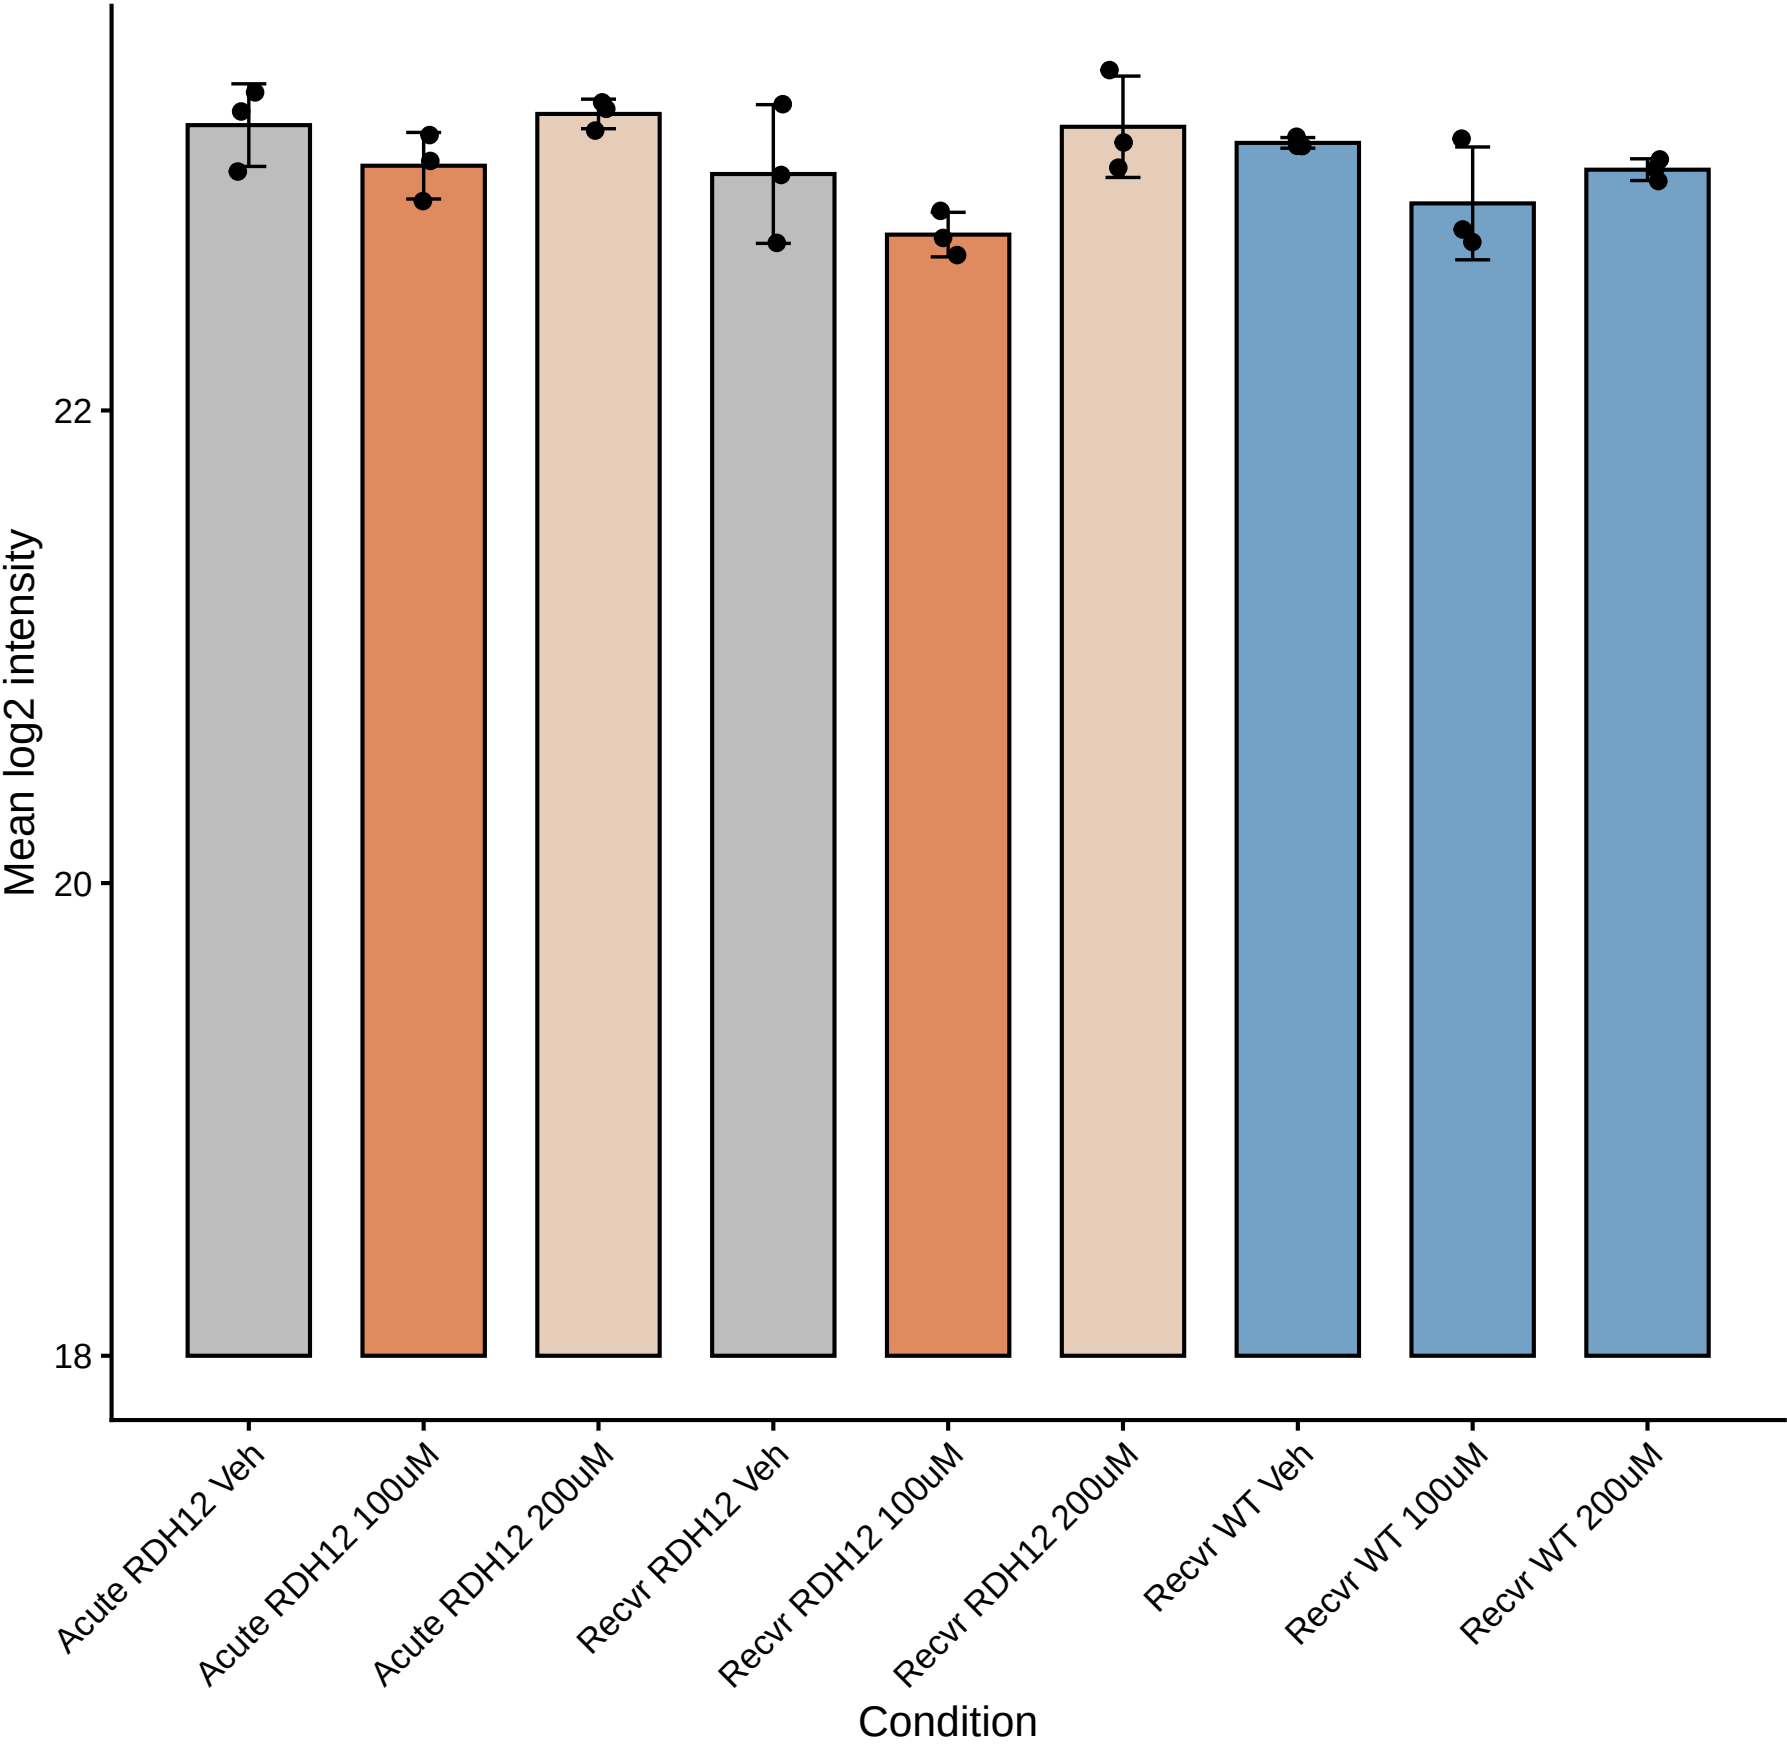

# SMPD4 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q9NXE4

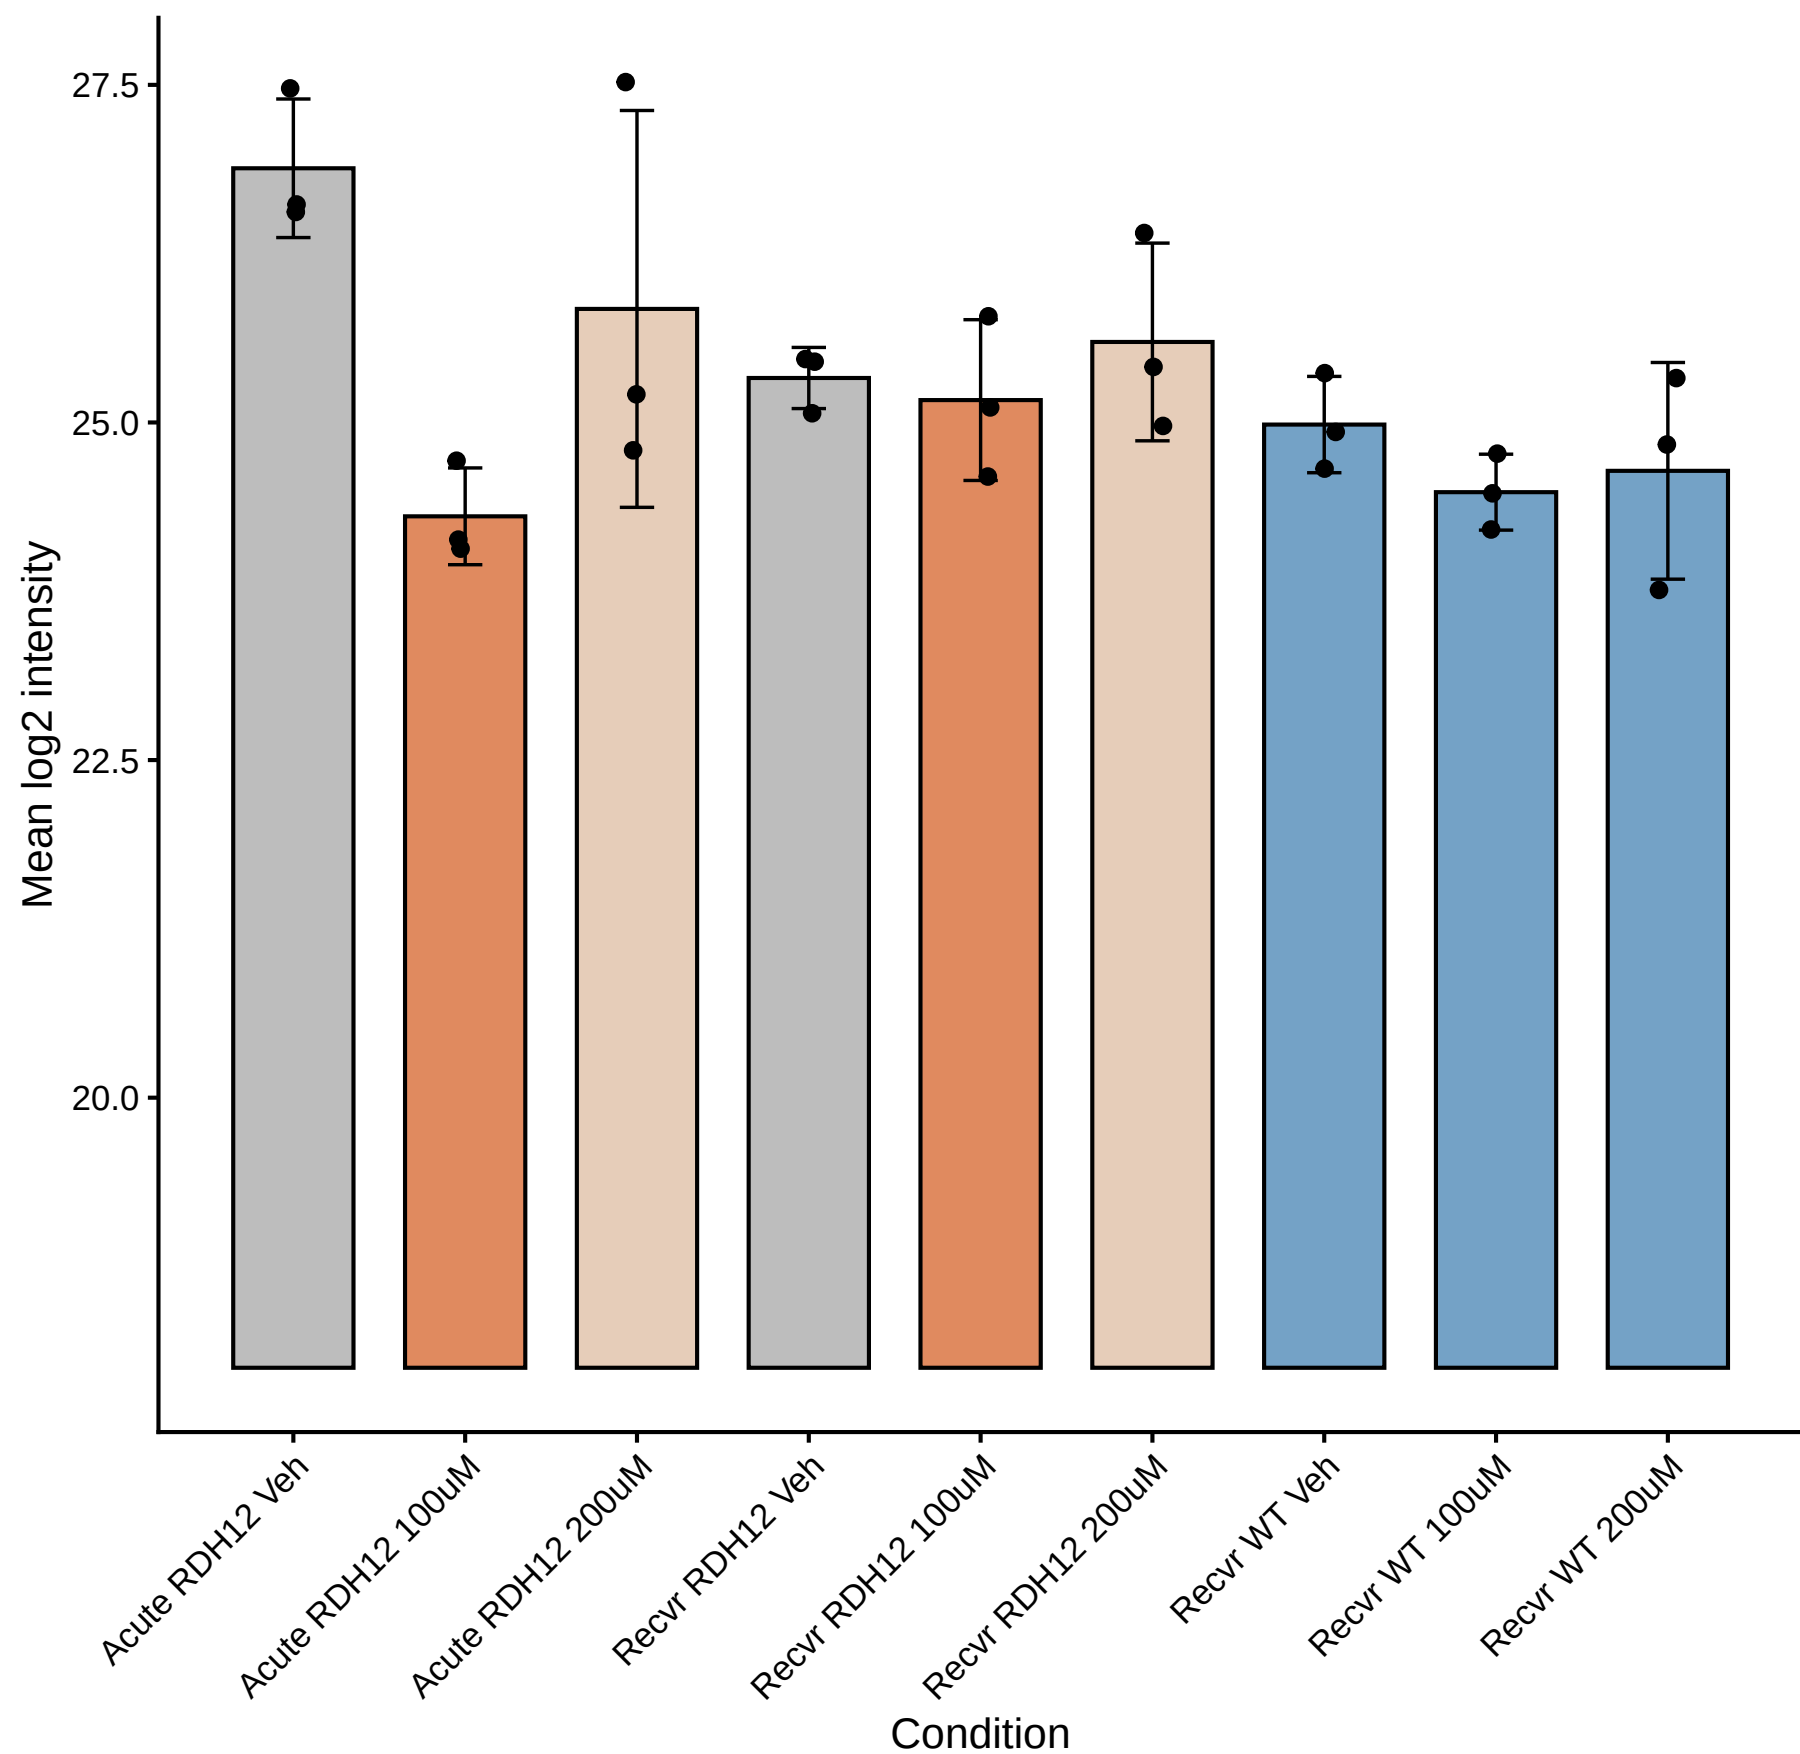

# HSF1 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q00613

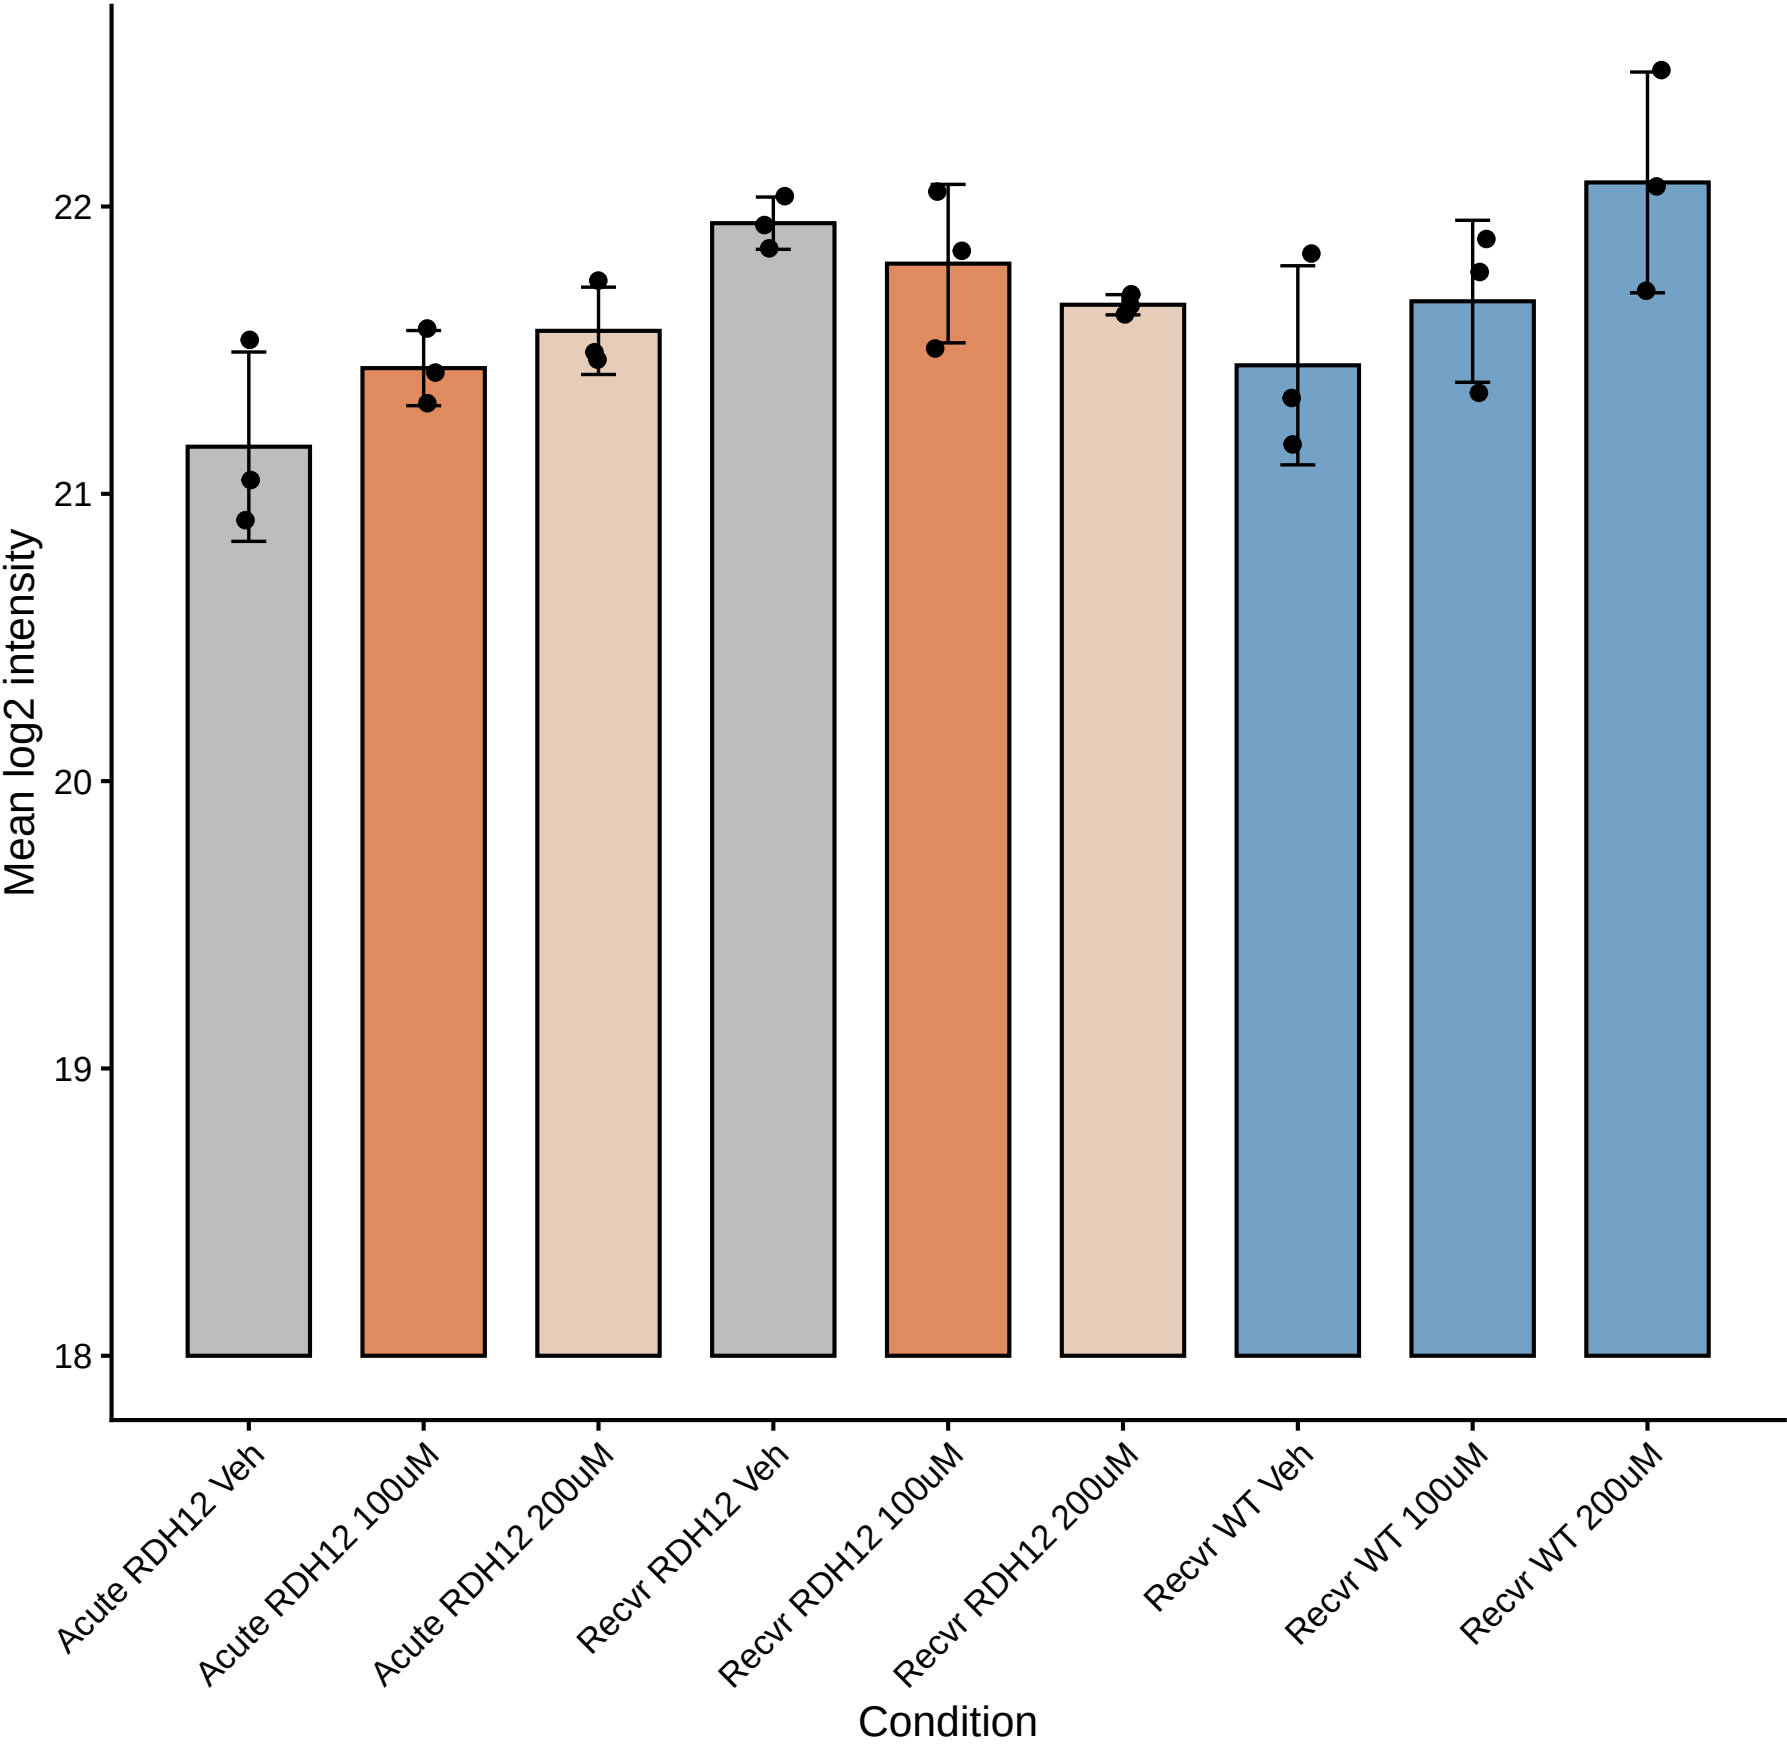

# ASAH1 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q13510

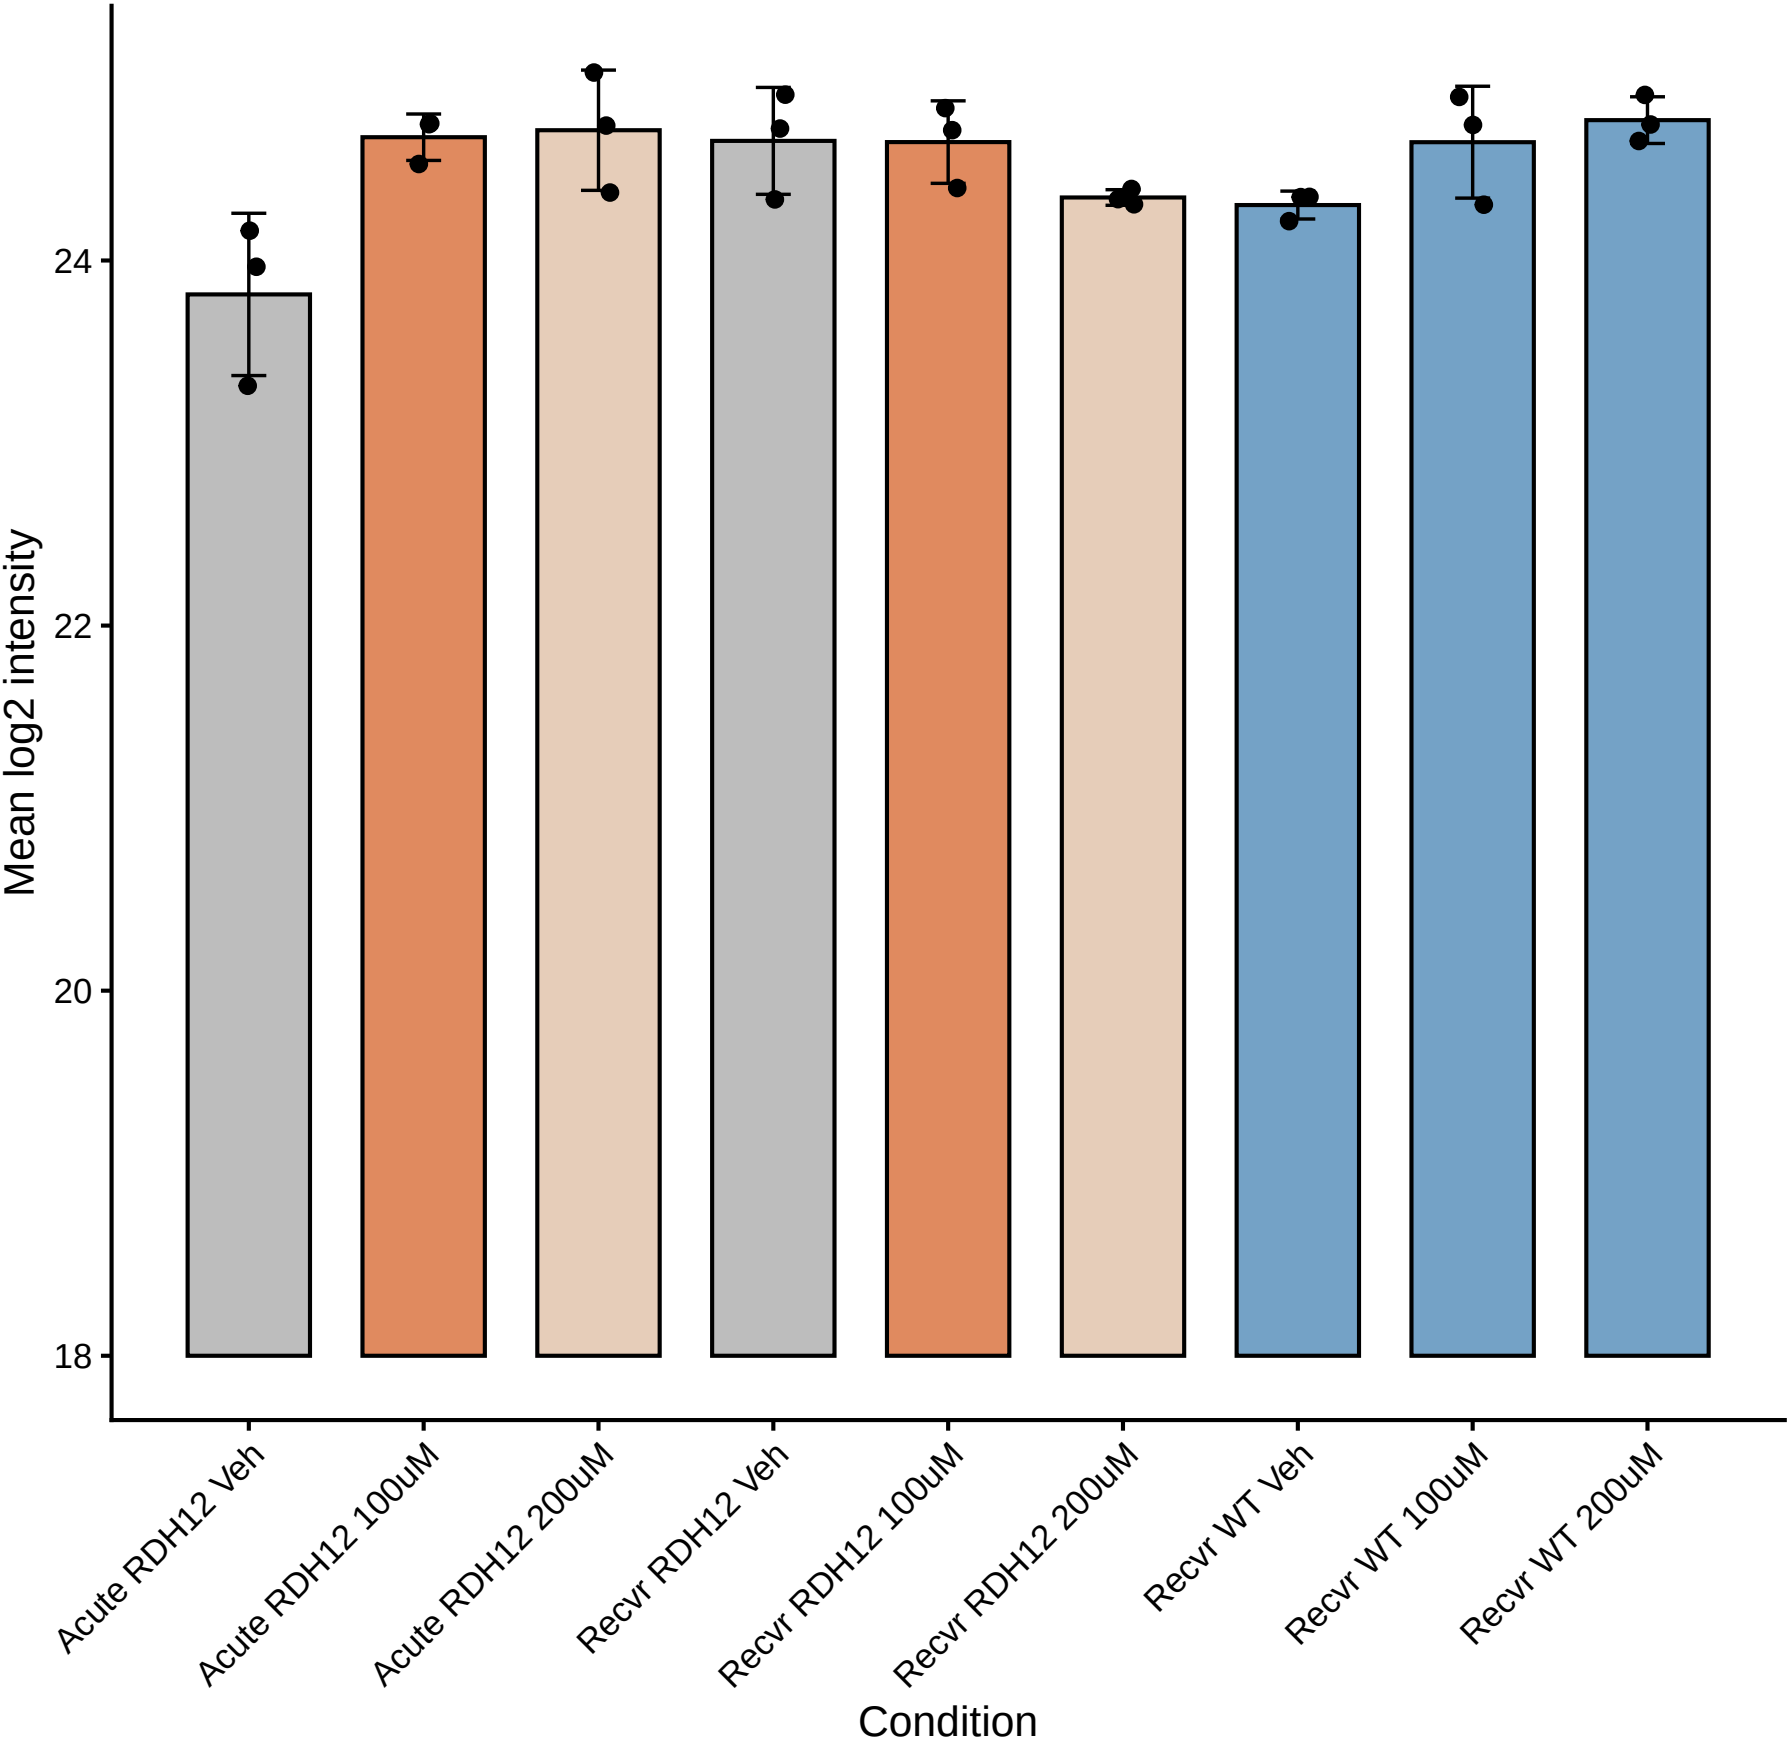

# CERS6 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q6ZMG9

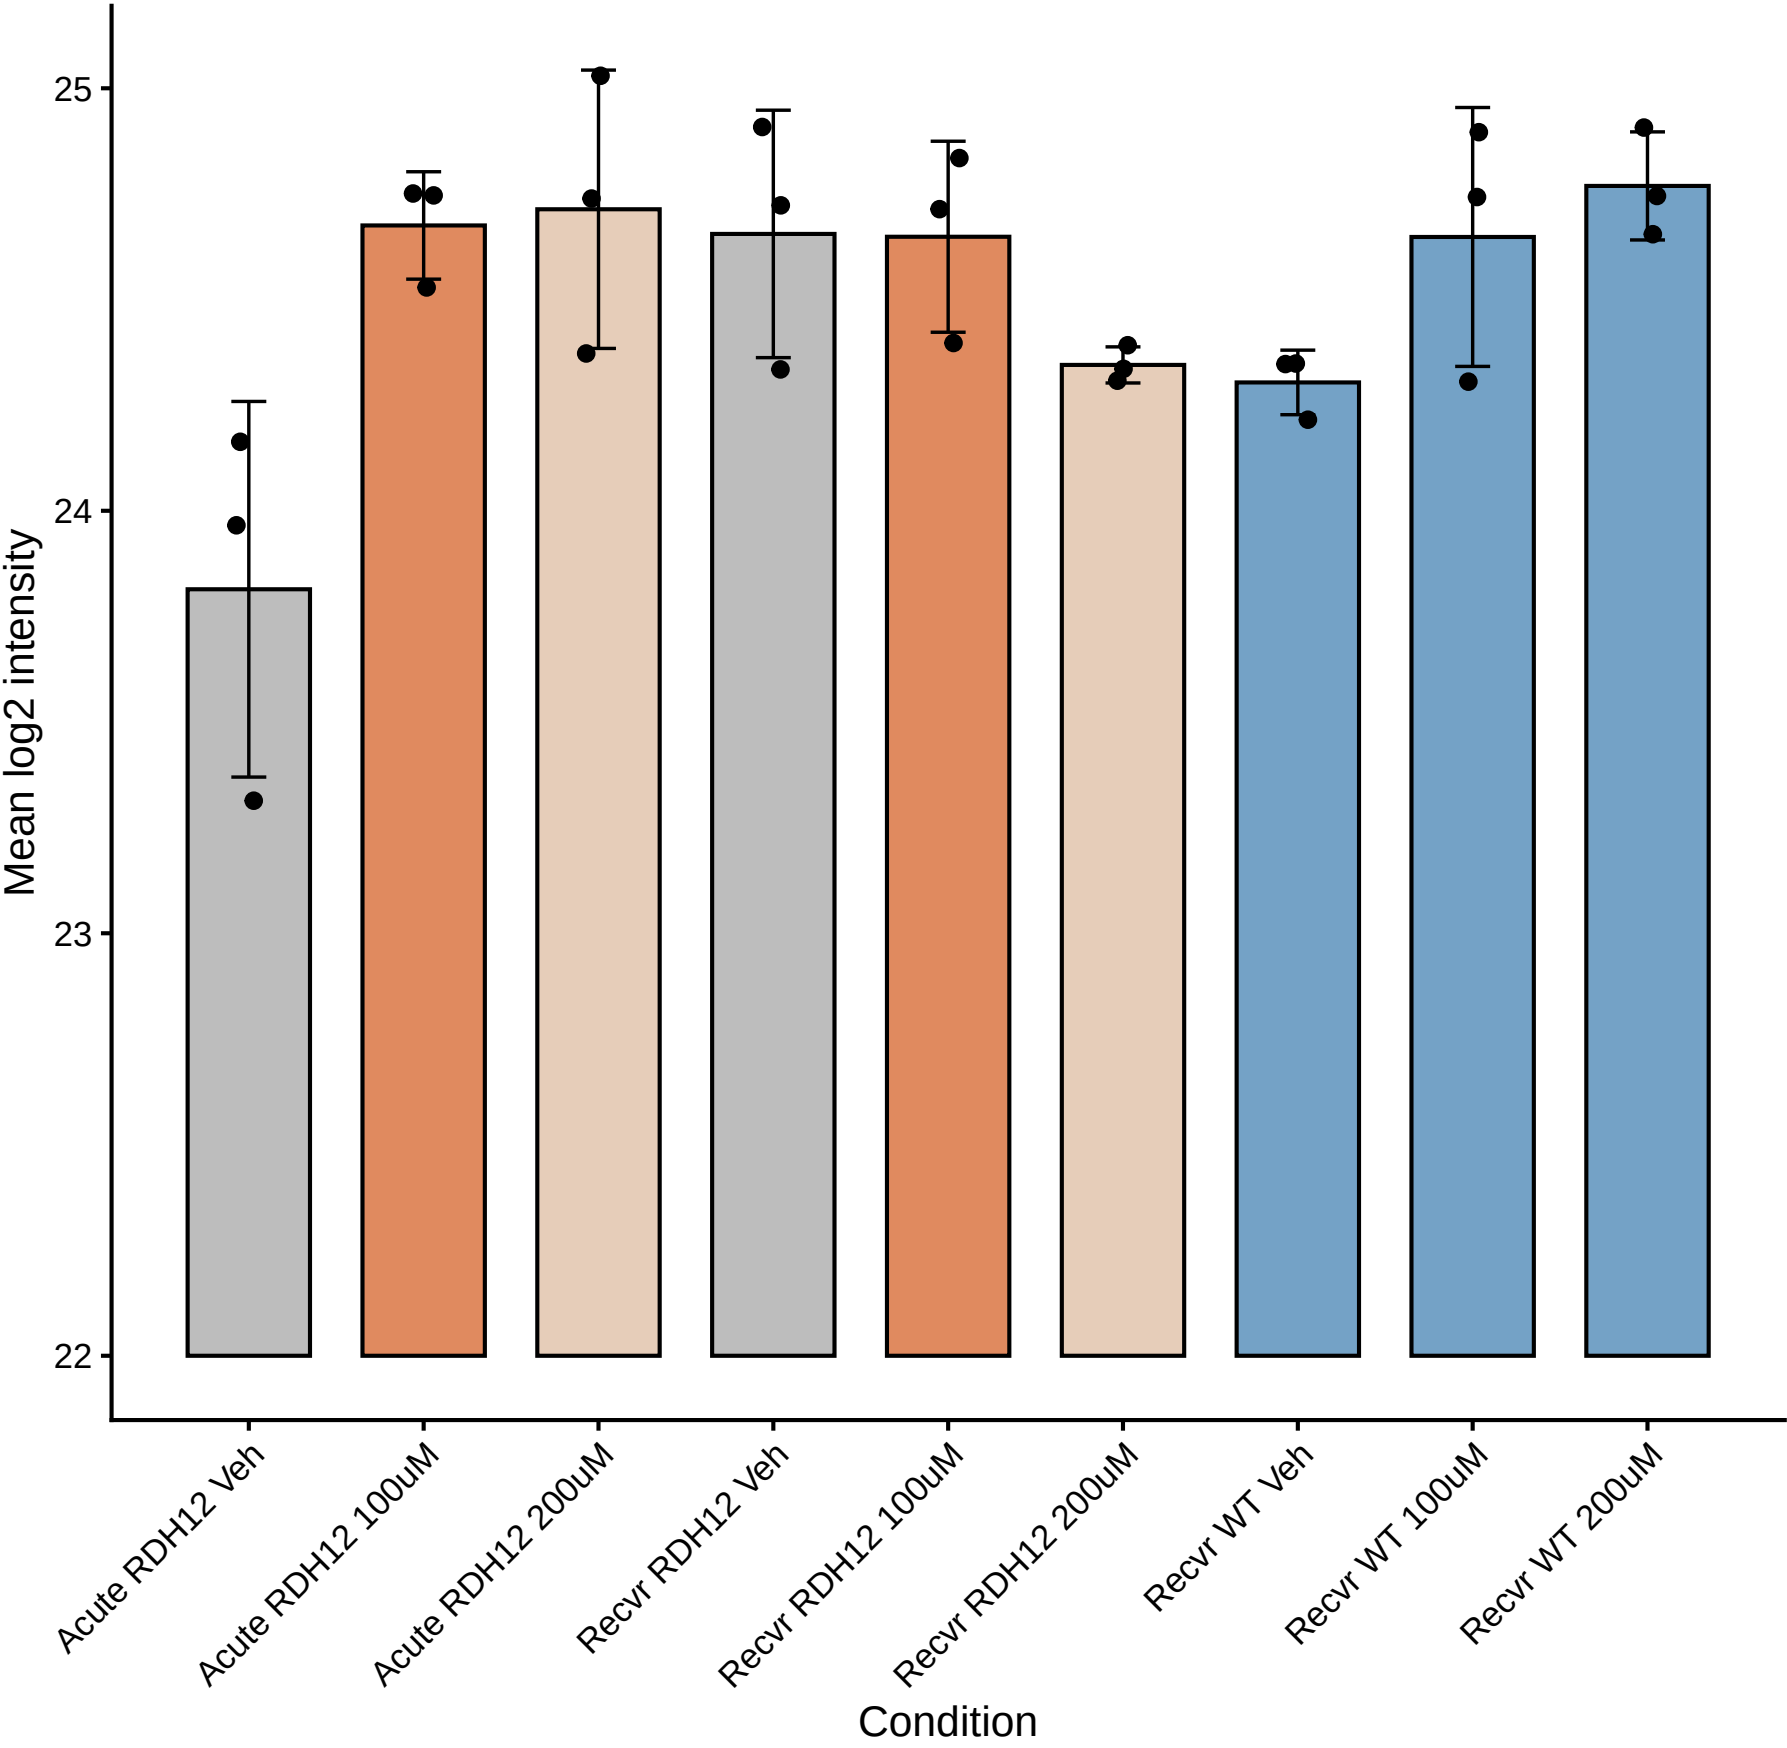

# CERS2 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q96G23

# CERS2 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q96G23

# CERS6 Expression by Condition

Mean intensity across proteomics samples | UniProt: Q6ZMG9
